THE WATER IS CALLING

WHY BUY A HYDROPOOL SWIM SPA?

START YOUR DAY OFF RIGHT WITH THE PERFECT SWIM

Hydropool Swim Spas are the perfect way to swim every day. Imagine never having to turn, touch or push off from any wall. Our state-of-the-art swim current gives you the flexibility to adjust to your personal swim level, and the ability to focus on your stroke technique. Our Swim Jet Design provides a wider, deeper, smoother current, and our tank design has no hidden obstacles like steps or benches for your feet to hit in the swim lane. These elements working together gives you a superior swimming experience over any other swim spa available on the market.

OWNERSHIP MADE EASY IS BUILT IN

Our patented **SELF-CLEANING™** feature minimizes maintenance, leaving you more time to train in your swim spa or enjoy your time with family and friends. You'll look forward to the times in your swim spa. Hydropool Swim Spas are also a great option for entertaining. Your guests are sure to leave with fond memories, every time.

FLEXIBILITY, PRACTICALITY AND NOT TO MENTION ENERGY EFFICIENCY

Whether it is a Play, Aquatic, or Executive Swim Spa, you will enjoy the best of all worlds, whether it's for fun or fitness. Our products will exceed your expectations while providing the best possible solution for your needs. The Hydropool Swim Spa's HydroWise Thermal Shield Technology with our energy-efficient components and our thick, energy-conserving hardcover, keeps operating costs to a minimum all year round. Being smaller than a conventional pool, our Swim Spas require less chemicals, less maintenance and less energy to heat and operate.

WE STAND BEHIND THE QUALITY OF OUR SWIM SPAS

We offer straightforward, no-nonsense protection. Hydropool offers an industry-leading guarantee on Hydropool Swim Spas - ask your retailer for details.

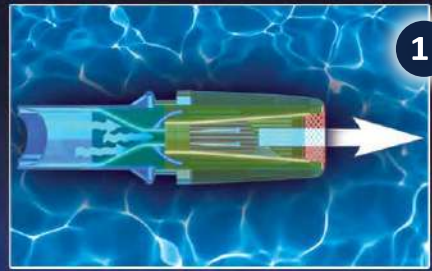

"The Swim Spa by Hydropool fits perfectly into our small backyard and has provided my family with all the benefits of a larger pool."

INNOVATION AT THE HEART OF YOUR SWIM

1.

1. V-TWIN JETS: THE PATENT BEHIND OUR JET PROPULSION SYSTEM

The V-Twin Jets are the most powerful, predictable and non-turbulent jets you can buy.

A. SHREDDING THE VORTEX

Pumps or propellers create a spinning vortex of water when travelling up a pipe to the jet. The V-Twin Jet is designed to organize and shred the vortex using the combination of our Current Collector and Swim Fins, creating a smooth swim.

2.

2. VFX: THE VARIABLE FLOW EXPERIENCE

The first "V" of the V-Twin jet accelerates the water, the second "V" then combines that water with the water drawn in from the swim gills to produce an amazing 1400 gallons per minute. The highest volume of water in the industry.

B. DOUBLING THE VOLUME OF WATER

This revolutionary VFX Control System makes this the most advanced pump management system in the world.

A. THE MOST ENERGY EFFICIENT PUMP IN THE INDUSTRY

Saving up to 40% compared to any competition, the HydroPool VFX pumps deliver huge energy savings from one season to the next.

B. BUILT-IN PROGRAMMED TECHNOLOGY

The VFX system allows the user to pre-program up to four users with the topside control. The control also has four ready-set programs for any user to take advantage of at the touch of a button.

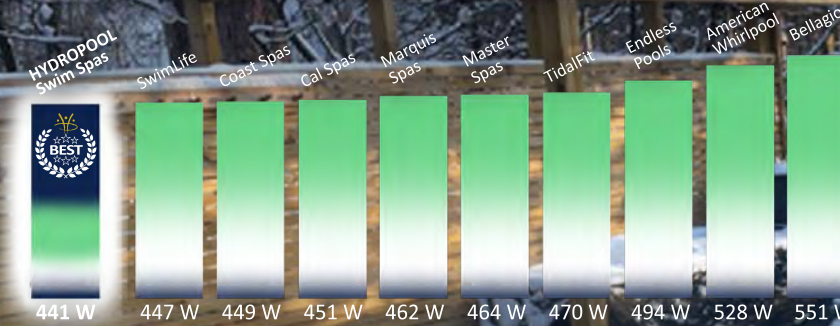

C. PRECISE SWIM CURRENT

The elimination of any water diversion creates a "dead centre" current. The combination of this and our Current Collector creates the most predictable swim current in the market.

WE ARE BEST IN CLASS WHEN COMES IT TO ENERGY EFFICIENCY

Thanks to our innovative HydroWise Energy Efficient Insulation and our superior 4 inch Everlast Thermal Cover, we've mastered the art of keeping the heat in and the cold out. Combine this with the fact that our swim spas are engineered to be the most energy efficient in the world. Meaning, you can enjoy your swim spa for just pennies a day.

HERE'S HOW HYDROPOOL **SELF-CLEANING™** SWIM SPAS COMPARE

On average you will use up to **20% less energy** when compared to other leading brands*

* Energy calculations based on data compiled by the state of California and US Energy Information Administration.

OUR ULTRA QUIET OPERATION

HydroPool Swim Spas are renowned for their ultra quiet operation, and this is due to their insulative properties. This insulation not only helps make them energy efficient, but it also traps and deadens sound energy which prevents any disruptive noise from reaching your oasis of relaxation.

Keep in mind these levels to understand just how loud these swim spas are in comparison.

Loud Rock Concert.....	115dB

SMART TUB™

Simplified Swim Spa Ownership At Your Fingertips

Introducing the new, exclusive SmartTub™ System*, engineered to maximize your relaxation, recovery and performance potential. From an app on your smartphone, you can enjoy the next generation of swim spa ownership, making it easier than ever to use and maintain your Hydropool Swim Spa.**

SMART TUB = PEACE OF MIND

- Working Properly
- Reminder
- Needs Attention

- **PROVIDES REMOTE MONITORING AND CONTROL** through phones, smart devices, and Siri® and Alexa® wearables anywhere in the world.
- **ENJOY EASY SETUP** just pair your app
- **DISCOVER ENHANCED** product knowledge and support
- **MASTER SWIM SPA CARE** with personalized tips and how-to videos
- **VIEW ENERGY USAGE** estimates***
- **ADJUST KEY SETTINGS**, such as energy efficiency and temperature while away
- **RECEIVE POWER OUTAGE NOTIFICATIONS** to reduce complications
- **ALERTS YOU AND YOUR DEALER** when your swim spa needs attention
- **STAY CONNECTED** with your dealer and "Click for Service"
- **ALL WITH SOFTWARE UPDATES** and a cellular connection that's simpler and more reliable than Wi-Fi.

PEACE OF MIND

Smart sensors send automatic alerts to you and your dealer if your swim spa needs attention, such as for power outages, freezing, or overheating.

* Patent pending.

** Requires subscription beginning in second year of ownership.

*** Estimates are based on sensor readings and are not meant to match your utility measurements, see your local utility company for specifics to your local system. SmartTub™ system uses cellular-based communication and requires cell service from our provider partner in your area. See store associate for details.

WHAT TYPE OF SWIMMER ARE YOU?

Find The Perfect Swim Spa For You And Your Family

When selecting a Hydropool Swim Spa, you will need to consider the pump design. Make sure the system you choose has enough power to deliver the results you want, whether you are an every day athlete, a triathlete, or just looking to enjoy some family fun. Next, look for a swim jet system that provides a smooth, turbulence-free swim current and provides a flow rate that is able to produce the current you expect to swim in.

If you need the ability to customize swims for multiple swimmers, you should consider the AquaTrainer or Executive Trainer models. The adjustability of the current is crucial for a high-level swimmer as it allows for both interval training and lower level options for all other swimmers.

HYDROPOOL EXCLUSIVE

Harness The Power Of Water With The EXECUTIVE TRAINER SWIM SYSTEM

The Executive Trainer Swim System makes this Hydropool's elite swim spa model, with its clean⁺ shell design in combination with our patented V-Twin Swim Jet technology and Current Collector. The Executive's VFX Control is fully programmable with four user programs and four preset programs, allowing each user to dial in the perfect swim. That makes the Executive strong enough to power everyone up to competitive triathletes and challenging even for the world's most powerful swimmers. But it's also designed to build and sculpt your body for swim success en route to victory.

Hydropool Swim Spas collaborated with Triathlete Jodie Becker from Canada enabling her to train for the world triathlon championships in Dubai.

1. PUMP DESIGN Exclusive Variable Flow Experience Pumps

This swim spa has two 5hp VFX Pumps and one 4hp Buoyancy Pump all located under the Executive Trainer's swim jets, producing the strongest, most predictable swim current on the market.

2. SWIM JET TECHNOLOGY Patented V-Twin Swim Jets

Provides the widest, smoothest and most predictable swim current of any swim spa. The unique V-Twin technology supercharges the swim current and generates over 1,400 gallons per minute, the highest volume of water you can buy.

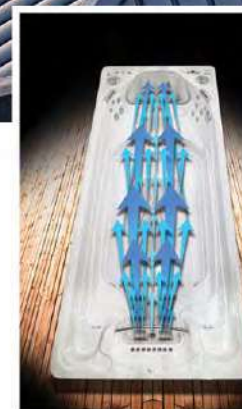

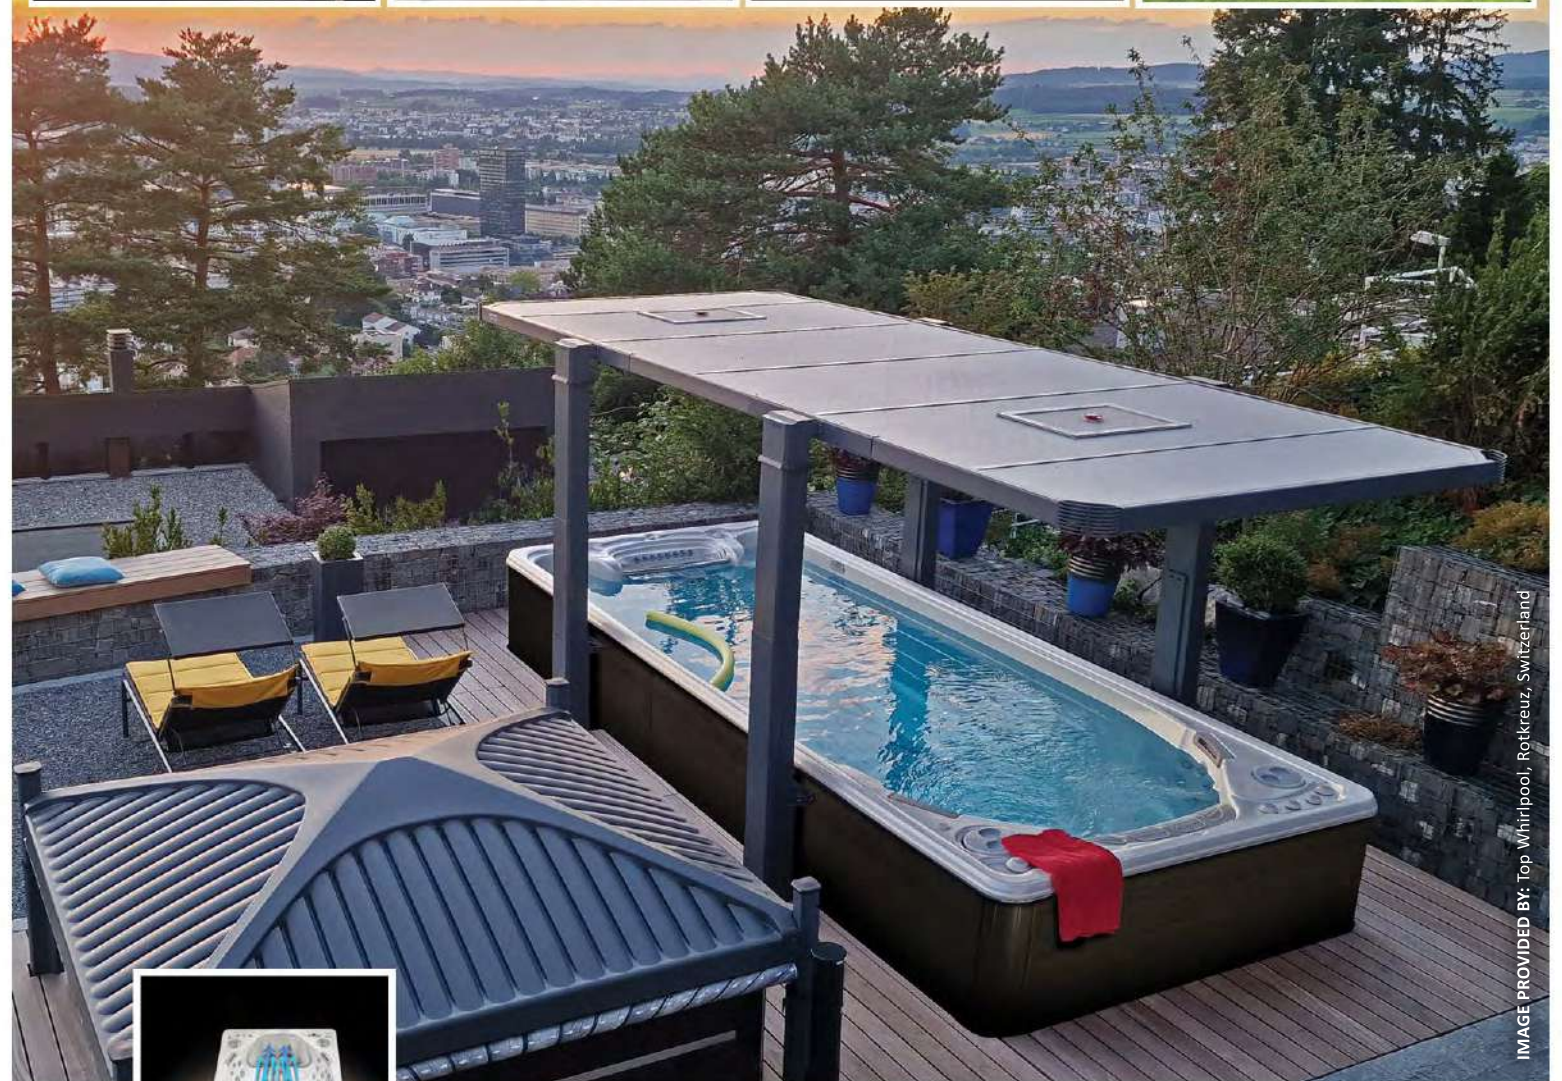

3. FULLY PROGRAMMABLE Take Control Of Your Swim With The Vfx Swim Control

Has the ability to simultaneously adjust the speed of both V-Twin Jets from 0 – 11 kph (0 – 6.84 mph) and can be adjusted for anyone from a novice level to a triathlete. It's the first swim spa with built-in technology that can track your speed, distance, time spent training and calories burned.

4. STREAMLINED SHELL DESIGN European Design

The shell design is open, barrier-free and tapered forcing the current to flow towards the current collector at the opposite end of the swim spa without obstruction.

5. TURBULENCE-FREE PATENTED CURRENT COLLECTOR TECHNOLOGY

All of the water that is produced from the V-Twin jets and buoyancy jet is pushed towards the patented Current Collector. This reduces the possibility of any reflective wave occurring and eliminates turbulence created by any diversion of the water. Functioning like a conveyor belt, the "Throw and Catch" further eliminates turbulence.

IMAGE PROVIDED BY: Top Whirlpool - Rotkreuz, Switzerland

16EX EXECUTIVE TRAINER SELF-CLEANING™

With our 16EX Trainer, you'll receive more room for your total body workouts. Fully-jetted seats and a wider exercise area make this model the best swim spa on the market. The patented Current Collector and backlit V-Twin Jets optimize the flow of water, allowing you to swim in much less turbulent water than competing swim spas. The 16EX Trainer features the smoothest, most predictable current, providing the best swim of any other spa on the market. Plus, you can still unwind with HydroMassage jets, which are ergonomically positioned.

EXPERIENCE THE POWER OF WATER WITH THE EXECUTIVE SPORT SWIM SYSTEM

REDEFINING THE BACKYARD POOL
 The perfect pool, perfect home gym and perfect waterpark all-in-one. That is the only way to describe the Executive Sport Swim Spa. The streamlined clean[†] shell design of this swim spa is tapered to allow the water current to flow unencumbered towards the current collector which then drives the water back up to the swim jets. This provides a smooth and predictable swim current for swimmers. The Executive Sport Swim Spa is the perfect place for families with children who are learning how to swim.

1. PUMP DESIGN PRODUCES A STRONG CURRENT

This swim spa has one AquaBoost Pump and one Buoyancy Pump all located under the Executive Sport's swim jets.

2. ACCUFLO SWIM JET TECHNOLOGY GREAT FOR EXERCISE

The two AccuFlo Jets produce the swim current, and the jet's laminar design flattens the water flow for a much smoother swim.

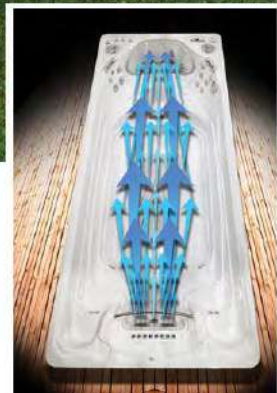

3. CUSTOMIZABLE CURRENT TAKE CONTROL OF YOUR SWIM

You can dial in your swim level and provide a fantastic swim for everyone in your family.

4. STREAMLINED SHELL DESIGN EUROPEAN INSPIRED

The tapered shell design allows water to flow towards the Current Collector unobstructed, producing the most predictable swim on the market.

5. TURBULENCE-FREE PATENTED CURRENT COLLECTOR TECHNOLOGY

All of the water that is produced from the AccuFlo swim jets and buoyancy jet is pushed towards the patented Current Collector. This eliminates the possibility of any reflective wave from occurring and eliminates turbulence created by any diversion of the water. Functioning like a conveyor belt, the "Throw and Catch" further eliminates any turbulence.

16EX EXECUTIVE SPORT SELF-CLEANING™†

The ultimate fitness and hydromassage pool, the 16EX Sport delivers all the fitness and fun of our 14' AquaSport models, plus extra room to stretch and work out. With two distinct ergonomically designed hydromassage seats and a unique jet configuration for total-body relaxation, you'll never want to leave your tub. Enjoy soothing aquatic therapy after every swim or just after a long day. The 16EX Sport combines functionality with beauty. The steel-framed cabinet offers a streamlined, modern styling made of state-of-the-art, durable materials that are virtually maintenance-free.

LIVE
YOUR LIFE
AQUATIC.

THE AQUATIC AQUATRAINER SWIM SYSTEM

The Aquatic AquaTrainer Swim Spa is the perfect way to swim every day. Imagine never having to turn, touch or push off from any wall. Our swim current gives you the ability to focus on your stroke technique while enjoying the fluidity of the swim current, adjusted to your personal swim level. The Aquatic Series also provides great seating flexibility and ample options to further enjoy this swim spa with family and friends.

1. PUMP DESIGN Produces A Strong Current

This swim spa has two AquaBoost Pumps and one Buoyancy Pump all located under the Aquatic Trainer's swim jets for better performance.

2. HYDRAULICS Produce A Smoother Current

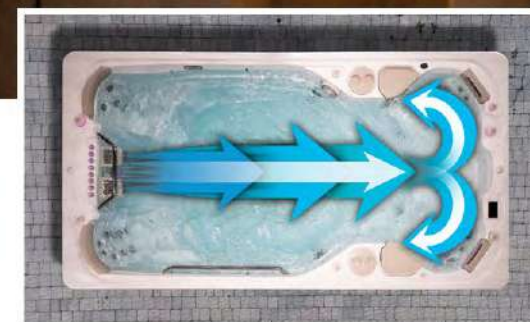

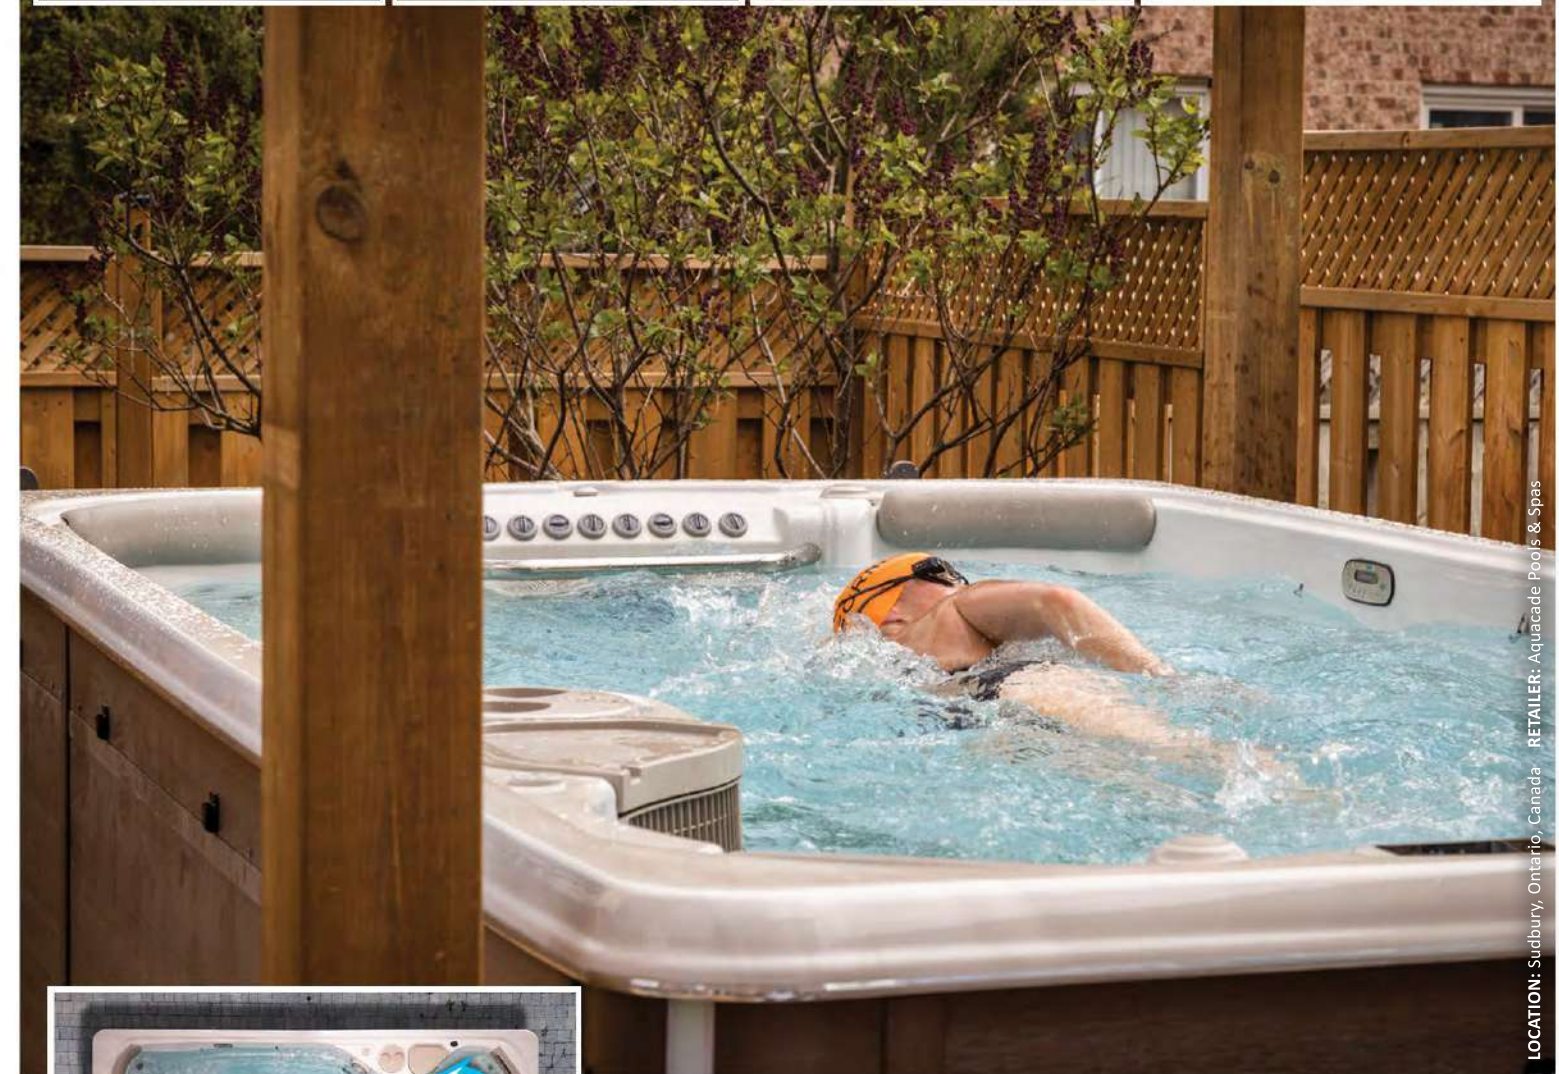

The oversized intake and returns produce more volume of water. Combined with the use of a unique sweep, 90° elbow produce a higher volume of water.

3. V-TWIN JETS Technology For A Turbulence-Free Swim

The patented V-Twin jet technology supercharges the swim current, producing over 1,400 gallons per minute. The highest volume on the market, this swim spa produces a wider, deeper and smoother current than any other swim system. These swim jets are also backlit to light the swim current to help you have a great swim at any time of the day.

4. PROGRAMMABLE AquaPro/Ax Control

Provides two Users Programs and two Preset Programs: The Hill Climb & The Interval Program. The swim current ranges from zero to 10 kph (0 - 6.2 mph) with ten speed levels. The control also tracks your calories, time, distance, and speed and provides visual motivation for the swimmer. The control is adjustable to the level of any swimmer, from the novice to the triathlete.

5. AQUACHANNEL SHELL WITH PERFORMANCE FLOW INTAKES

The shell hips are designed to create an eddy in the seating area. The Performance Flow Intakes reduce any reflective wave to help keep the swimmer in the swim lane. The Aquatic Swim Spa Shell design has one of the largest unobstructed swim tanks on the market. The shell also includes Hip Jets that stabilize the swimmer in the swim lane.

THE AQUATIC AQUASPORT SWIM SYSTEM

THIS IS THE IDEAL
UNIVERSAL AQUATIC GYM

This swim spa has a generous streamlined swim tank area and a flat ergonomically designed anti-slip floor that allows for a variety of fitness exercises.

Plus, you can create the perfect training environment through personalized water temperature settings. The intensity of your workout is controlled by the speed of your movements and the velocity of the current.

Additionally, the swim spa is a safe and easy environment. Perfect for teaching the kids how to swim.

1. PUMP DESIGN Produces a Strong Current

This swim spa has one AquaBoost Pump producing up to 360 Gallons per minute and one Buoyancy Pump all located under the AquaSport's swim jets.

2. EFFECTIVE DESIGN Provides More Efficient Hydraulics

Suctions are located in the Performance Flow Intakes to eliminate turbulence and the oversized intakes allows the return pipes to move more volumes of water. These Evergreen pumps use 30% less amperage than any traditional pump.

3. ACCUFLO SWIM JETS Slipstream Swim Jet Technology

The two AccuFlo Jets produce the swim current while their honey comb design flattens the water flow for a smoother swim and is great for those that do aquatic exercise.

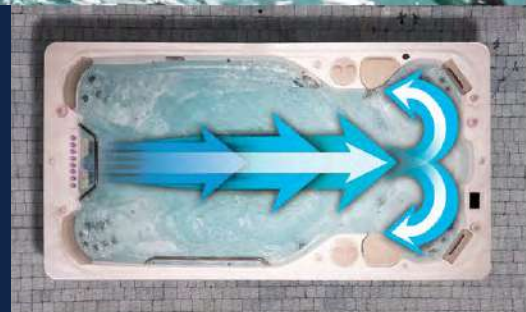

4. JETFLEX SWIM SYSTEM Customizable Current

The system produces 5 kph (3.5 mph) of swim current and is fully adjustable for the user, allowing varying flows of water.

5. AQUACHANNEL SHELL COMPLETE LOOP SHELL DESIGN

The shell hips are designed to create an eddy in the seating area. The Performance Flow Intakes reduce any reflective wave to help keep the swimmer in the swim lane. The Aquatic Swim Spa Shell design has one of the largest unobstructed swim tanks on the market. The shell also includes Hip Jets that stabilize the swimmer in the swim lane.

14AX AQUASPORT SELF-CLEANING™

The 14AX AquaSport features a new ergonomic design swim tank design along with numerous engineering innovations that include four Hydrotherapy Seats, each with customized Zone Therapy. The swim has gone to new depths with a 53-inch deep swim tank. It has two AccuFlo jets that deliver a smooth swim and one AquaStream jet, all backed up by our new Dual Performance Flow Intakes that dramatically reduce the reflective wave effect. The swim tank features new soft stride mats on the floor. All encompassed by our new acrylic lip edge design.

19DTAX AQUASPORT SELF-CLEANING™†

The AquaSport 19DTAX has it all. It's a swim spa and hot tub all in one. This dual-zoned swim spa delivers the ultimate in flexibility, and has the best of both worlds with a separately controlled and operated swim spa and hot tub. This combo is a fiberglass-reinforced and then one-piece mini-pool/hot tub that provides you the ultimate room to swim, jog, exercise or just relax and rejuvenate. Plus, it creates even more time for what matters as both options feature our exclusive self-cleaning† system. You won't find another swim spa or hot tub like ours anywhere else.

RAISING THE STANDARDS IN COMFORT, DESIGN & MASSAGE

Hydropool is one of the largest swim spa manufacturers in the world. We are committed to building superior swim spas utilizing the latest technologies, with the newest environmental practices. Our research and development team is constantly striving to be on the leading edge of innovation and design.

STEP INTO YOUR COMFORT ZONE

1. Recessed Jetting
2. Ergonomically Designed Seating
3. Safety Steps inside the Swim Spa
4. Convenient Ice Bucket

DESIGNED WITH YOU IN MIND

5. Insulated HydroWise Cabinet gives Swim Spa a European finish.
6. Bellagio Package

ZONE THERAPY IN AN AQUATIC COLLECTION SWIM SPA

Through our extensive knowledge of hydrotherapy and the human body's ergonomics, Hydropool has taken the science of immersion to the next level and developed a line of swim spas that provides Zone Therapy that interacts naturally and effectively with the human body. Hydropool Zone Therapy is designed around you and your hot tub usage to help you benefit from a general sense of well-being. We are all unique individuals genetically and with varying lifestyles that all play a role in defining our sensitivity to a release of various tensions.

1. SEATING DESIGNED AROUND YOU

1. Built to work with your body's natural structure.
 - Provides maximum comfort and functionality.

Cradles your bone structure so that the muscular system doesn't have to.

- Removes stress from your muscles and joints and lets your body relax.

2. TYPE OF JETS

2. **NO STING JETS.**
 - Designed to produce a high flow low pressure massage.
- DESIGNED BY MASSAGE EXPERTS.**
 - Whether it is Percussion, Muscle Release or Deep Tissue Jets all jets have been designed for a specific purpose.

3. PERSONALIZED MASSAGE

3. **JETFLEX**
 - Move any same size jets around in your swim spa or hot tub to make your massage experience custom.

AIR/WATER MIXTURE

- Control the perfect mixture of water and air in the zone.

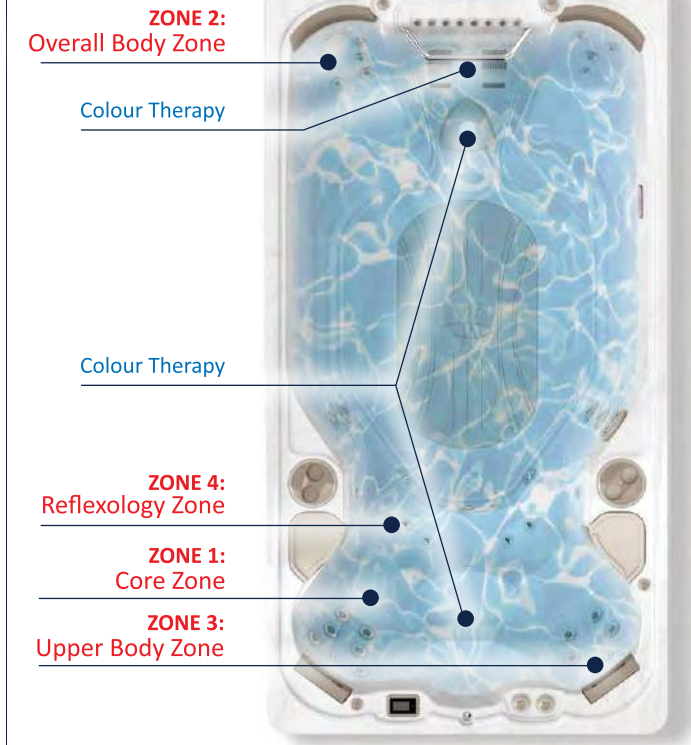

MASSAGE SELECTOR

- Customize the intensity of massage in each zone with the massage selector.

4. DURATION AND SEQUENCE OF ZONES

- DURATION**
- Time that you spend in each seat of the Swim Spa can optimize your treatment.
- SEQUENCE**
- Sequence of seats is critical to the performance of the Zone Therapy.

5. HOW DOES ZONE THERAPY WORK?

Through our solid understanding of Zone Therapy and ergonomics of the human body, Hydropool has taken wellness to the next level. This constantly evolving innovation has created a line of Swim Spas that allows Zone Therapy to interact with the human body in the most natural and effective way possible

ZONE THERAPY

- A. ZONE 1 CORE ZONE**
Activation Of The Muscles That Support The Back
- Designed to relieve spine fatigue which causes headaches.

- B. ZONE 2 OVERALL BODY ZONE**
Activation Of Leg And Lumbar Muscles
- Promotes improved circulation in lower parts of the body which allows for increased blood flow and lightens legs.

- C. ZONE 3 UPPER BACK ZONE**
Activation Of Upper Back, Neck And Shoulder Muscles
- Eliminates tension in the shoulder and neck muscles.

- D. ZONE 4 REFLEXOLOGY**
Activation Of Foot Arch Muscles
- Designed to deeply massage the small venous areas in your foot arch.

HYDROPOOL EXCLUSIVE FEATURE

OUR EXCLUSIVE **SELF-CLEANING™** TECHNOLOGY

We know that one of the big challenges for our customers is the time they need to invest in maintenance. Now, with our PATENTED **SELF-CLEANING™** Technology, Hydropool has created the world's easiest swim spa to maintain. This **SELF-CLEANING™** System cleans[†] 100% of the water every 40 minutes. That's an incredible three times in 2 hours!

Let's be clear, this is not a simple vacuum for your swim spa, it's innovation throughout the entire system.

Did You Know...

WITH THE QUICK DRAIN SYSTEM THERE IS:

No Shop-Vac or Sump pump needed. It pumps the swim spa water out at any distance and any grade. This system saves time and the hassle associated with swim spa maintenance.

THE HYDROPOOL PUREWATER SYSTEM:

This is a very efficient water purification system that combines the **SELF-CLEANING™** technology with UV and Ozone Water treatments.

THE **SELF-CLEANING™** SYSTEM COMPRESSES OF...

1. HYDROCLEAN FILTRATION JETS

Optimized Surface Filtration

- Strategically placed jets create a continuous flow of water around the swim spa.
- Pushes all floating debris towards the High Flow Skimmer.

2. HIGH FLOW SKIMMER

Keeps The Water Surface Clean[†]

- Removes floating debris.
- Prevents larger debris from clogging the pump and heater.
- Extends life of the filters.

3. HYDROCLEAN[†] FLOOR VACUUM

Keeps Floor Clean[†]

- Built in Floor Vacuum – Cleans most of the bottom of the swim spa.
- Circulates watercare products more effectively.
- Part of our Quick Drain System.

4. **SELF-CLEANING™** FILTRATION PUMP

- 35 GPM - 24 hour low energy circulation pump.
- Stealth silent flow.

5. PUREWATER SYSTEM

All Natural System

- Designed to keep your Hydropool Swim Spa water clean[†] and clear the way nature intended.
- Preventative system designed to prevent problems from happening.

6. PRESSURIZED MICRO-FILTER WITH MICROBAN

Cleans[†] 100% Of The Water Every 40 Minutes

- Designed to polish the water filtering the smallest of particles.
- Microban protection helps to prevent the growth of bacteria in the filter area.
- Easy to access, easy to clean

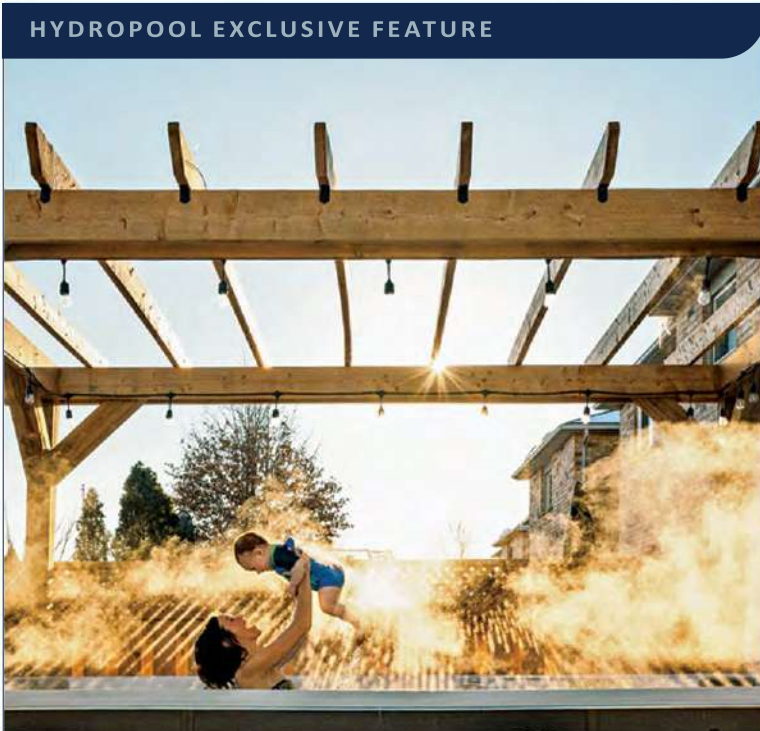

7. WATERCARE SYSTEM

Worry Free & Convenient

- Strategically placed where the dirt and debris accumulate.

- Easy to use and out of sight

MADE IN CANADA FOR CANADIAN WINTERS

At Hydropool, our world is our water. We not only engineer our swim spas to care for water, clean it and preserve it for generations to come but our commitment to a healthy planet extends beyond water.

One of the most frequent questions we're asked is about the cost of keeping your swim spa at those ideal temperatures (around 86° F/30° C). Thanks to our innovative HydroWise Energy Efficient Insulation and our superior HydroWise Hard Cover, we've mastered the art of keeping the heat in and the cold out. Combine this with the fact that our swim spas are engineered to be the most energy efficient in the world. Meaning, you can enjoy your swim spa for just pennies a day.

Our swim spas are ranked as one of the most energy-efficient in the world according to data compiled by the state of California. See our **HydroWise Energy Guide** for full details.

HYDROPOOL EXCLUSIVE FEATURE

1. EVERLAST STEEL FRAME & PRO POLYMER BASE Strongest Frame In The Industry

- Galvanized steel frame. No rust and no rot.
- Fully sealed base to lock the heat in keep the cold out.

2. HYDROWISE TRIPLE THERMAL SHIELD Saving You Money

Each pump creates 1.5 kw of waste heat, our hybrid heating system captures and recycles this heat so the heater doesn't need to turn on as often to heat your swim spa. Thermal reflective blanket wraps plumbing, reflecting heat from the shell & plumbing back into the swim spa.

- **FOAM INSULATION:** Creates a thermal break, preventing waste heat from escaping.
- **INSULATED CABINET:** Adds additional insulation and thermal radiant layer reflecting heat from the pumps and equipment back into the swim spa.

3. ECOHEAT EXCHANGE TECHNOLOGY Great For Any Season

- Help control the temperature of the swim spa without the heater ever coming on.
- The fully adjustable HydroWise Thermal Vents maximize energy efficiency for any season and any climate.

4. THERMAL OR ROLLAWAY COVER OPTION Made For Canadian Winters

- Heavy duty locking safety hard cover.
- Most energy efficient hardcovers in the industry.
- Locks on all sides to keep animals out and children safe.

5. SELF-CLEANING™ TECHNOLOGY Designed To Extend Your Water Life

COMMERCIAL GRADE FILTRATION cleans† 100 percent of the water in only 40 minutes.

PUREWATER SYSTEM Designed to keep your Hydropool Swim Spa water clean† and clear the way nature intended.

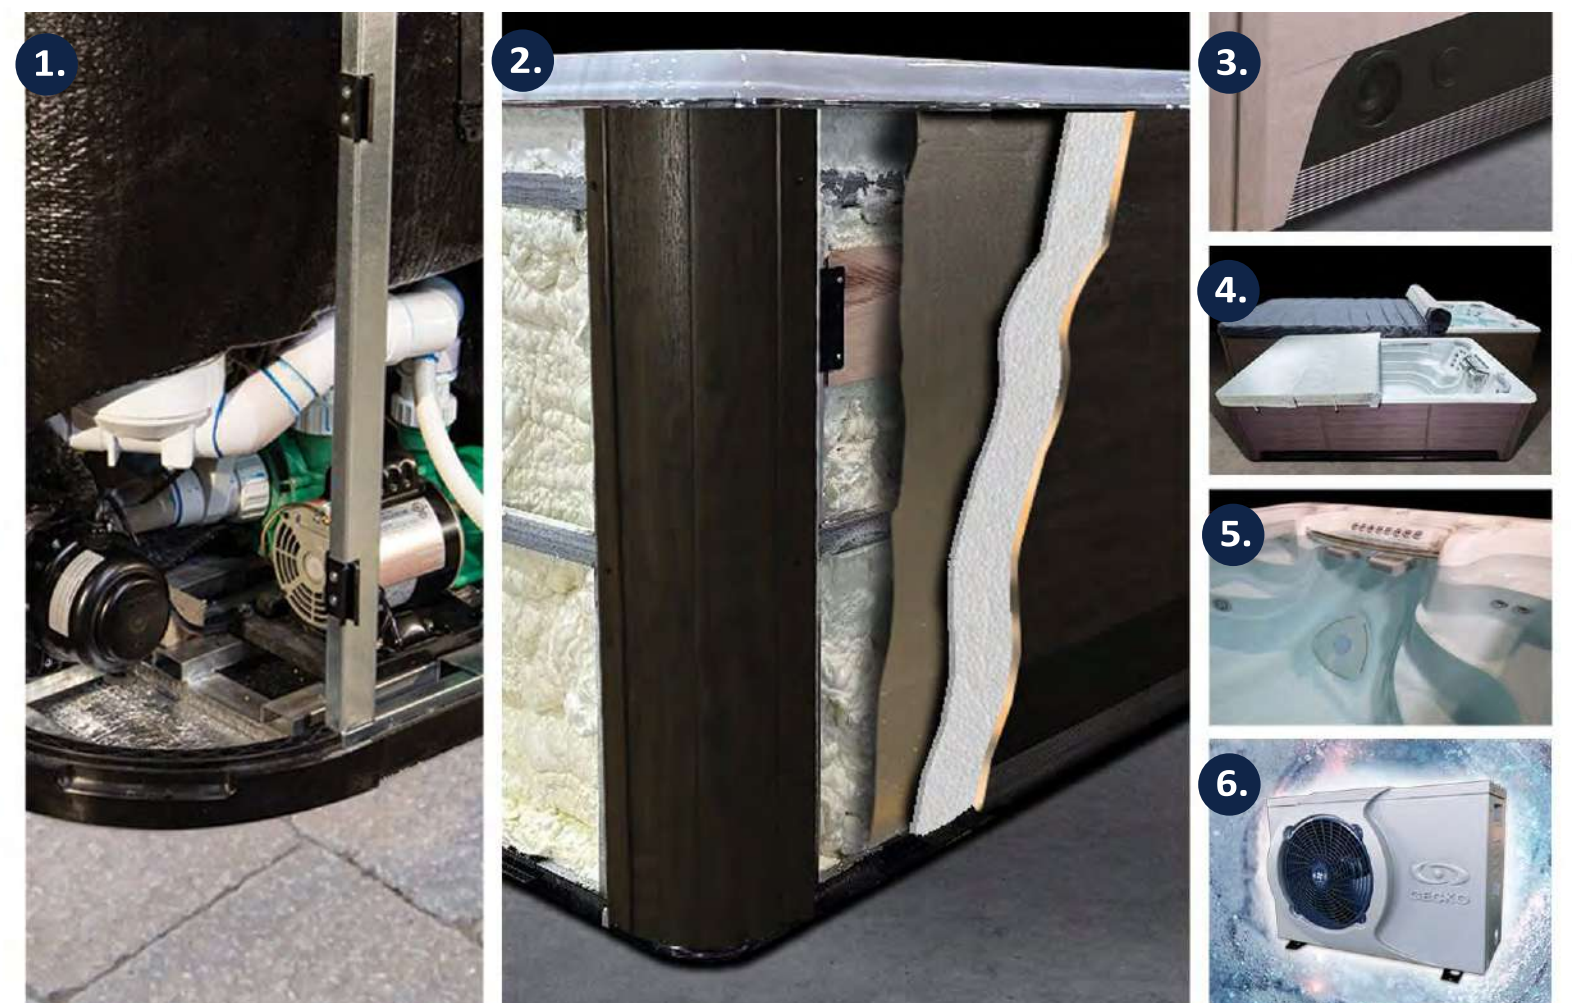

SELF-CLEANING™ FILTRATION PUMP 5 GPM/24 hour low energy circulation pump. Cleaner water faster.

6. HEAT PUMP BYPASS TECHNOLOGY READY Heat For Only Pennies A Day

- Digital control ready to accept heat pump.
- Commercial grade bypass technology.

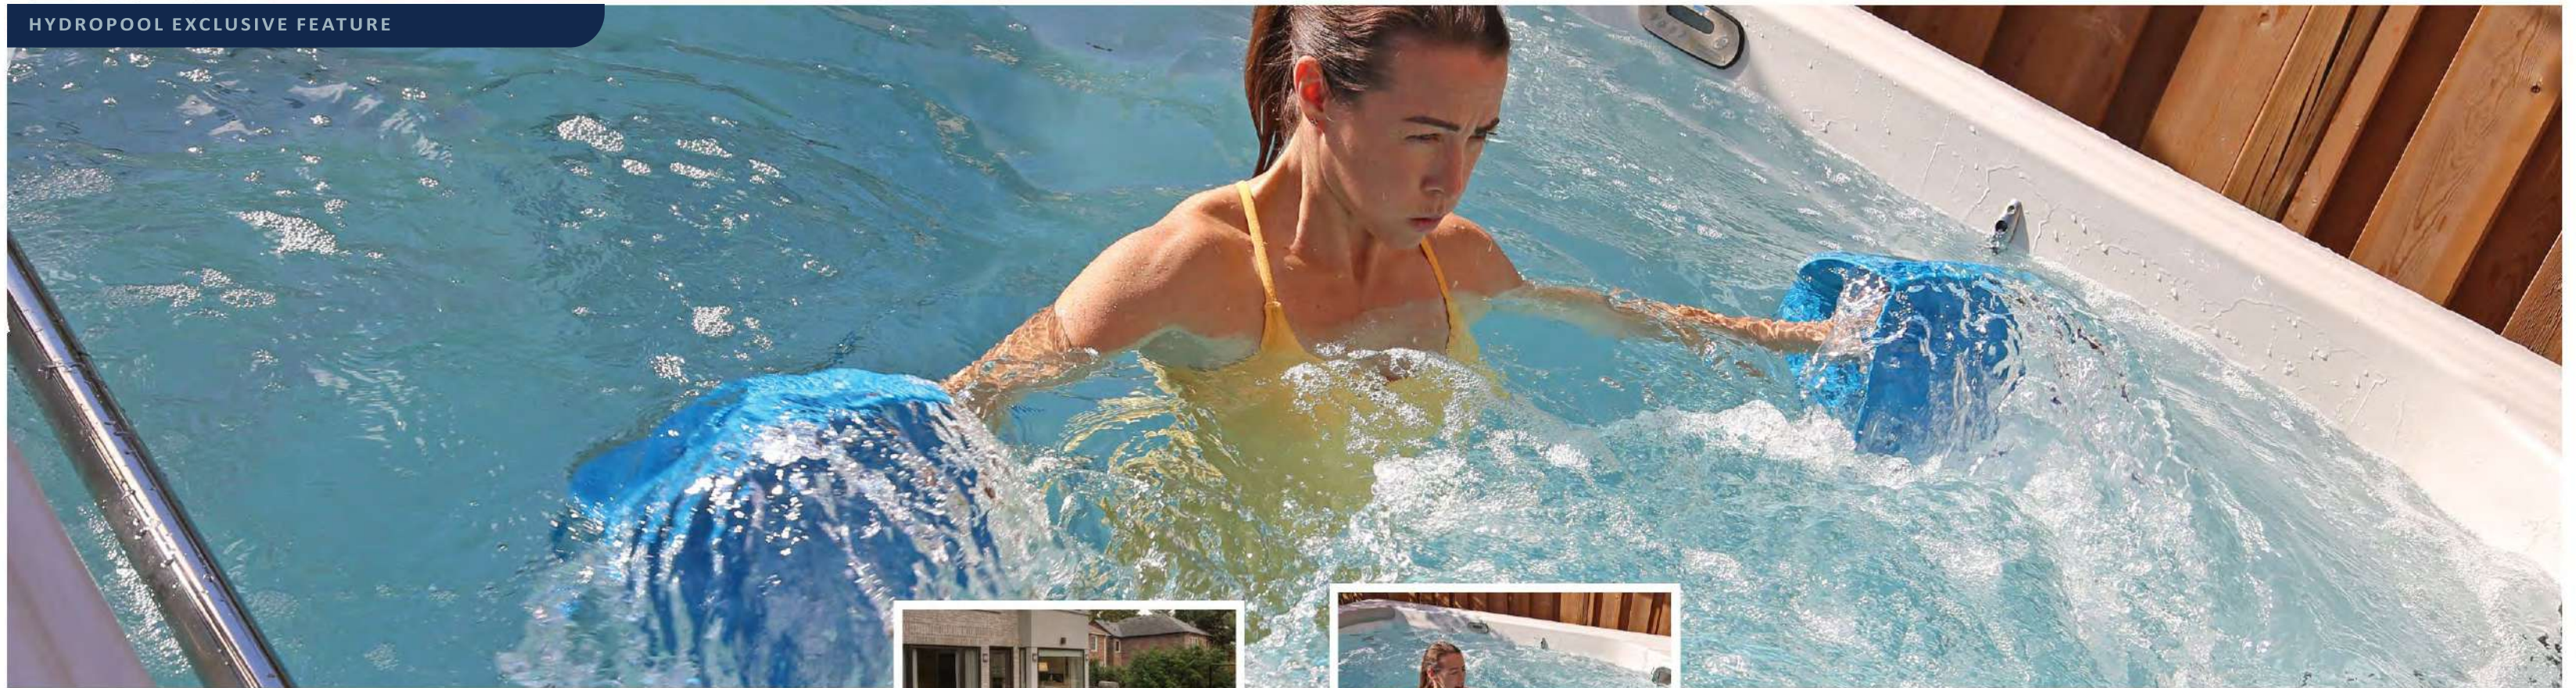

7. SMARTTUB® Smart Heat

Set your Swim Spa schedule and desired temperature and let the system optimize heating based on local weather and Swim Spa volume.

We have always been developing new ways to better our energy efficiency...

- 1980 Engineered the first Self-Cleaning™ System to better energy efficiency.
- 1981 Spray Foam insulation on shell to improve energy efficiency.
- 1992 First use of Full Foam Insulation.
- 1996 Changed to Perimeter Foam.
- 2000 Perimeter foam to HydroWise Double Thermal Shield System.
- 2005 Introduction of EcoHeat Exchange technology.
- 2008 Launch of Evergreen Carbon Neutral Program.
- 2010 Introduction of Evergreen Pump & black pipe technology.
- 2013 Addition of Evergreen Self-Clean™ Filtration Pump.
- 2017 New Low Amperage pump.
- 2018 Introduction of the Triple Thermal Shield System.
- 2019 Introduced the PureWater System.
- 2024 Addition of the HydroWise Thermal Shield Cabinets.
- 2024 Introduction of Heat Pump Technology Bypass.
- 2025 Introduction of Smart Tub technology.

HYDROPOOL CROSS TRAINING SYSTEMS

WATER HAS BUILT-IN RESISTANCE

Simply put if you're moving your body through water instead of through air, you're working harder. This resistance is great for building all-around strength and endurance. You can adjust the resistance: Depending on your speed, position, or form in the water, the resistance you face is dynamic. Working out in your own Swim Spa has a lot of benefits.

1. HOME GYM

Work Out In The Convenience Of Your Own Home

You choose when to work out in your swim spa and it is easy to use – No complicated machinery. You work out in the privacy of your own yard or home.

2. LOW IMPACT EXERCISE

Easy On The Body High-Intensity Training

Aquatic exercise strengthens your muscles and improves your cardio fitness. Aquatic exercise does not subject your body to the wear and tear of high impact land-based exercise.

3. BUILT IN TREADMILL TECHNOLOGY

Easy To Use

4. DRAG RESISTANCE TRAINING PROGRAMS

The HydroRevolution patented equipment capitalize on what we call “the principal of fluid omni-directional drag resistance” in water. Quite simply this means being able to work a muscle group equally and smoothly in any direction.

- HydroRevolution 21 Day Challenge
- HydroRevolution Box Fit Program
- Pre Natal Aquatic Fitness Program*

5. FREE TRAINING VIDEOS

Get The Most Out Of Your Swim Spa And Yourself

HYDROREVOLUTION

21-DAY DRAG RESISTANCE WELLNESS CHALLENGE

Don't be sucked into a workout that promises a “toned body” by the end of it. There's a more important reason to exercise: It makes you feel great. Good mental health is just as important as good physical health, and exercise is crucial to getting both. The 21-day wellness challenge Jodie created below celebrates all the good stuff that comes with improving your fitness including more energy, better health, and the motivation to keep coming back for more. So while this routine might get you closer to physical goals, it can also bring about invisible changes.

This 21-day workout plan is designed for all fitness levels, so just choose the exercise and cardio variations that are right for you. Trying to make exercise a lifelong habit? Use these three weeks as a jumping-off point. If you're already in your own workout groove, there are plenty of challenges here to boost your routine.

THE 21 DAY CHALLENGE:

- DAY 1:** Total Body Check In, *Goal Setting*
- DAY 2:** 20 min. Workout, *Intro Into Mindfulness*
- DAY 3:** Intro into High-intensity Interval Training
- DAY 4:** Gentle Cardio, *Aquatic Yoga Cool Down*
- DAY 5:** Building Strength For Life, *Nutrition & Hydration*
- DAY 6:** Movement is A Mindset
- DAY 7:** A Triathletes Workout, *Stress-Reducing Stretch*
- DAY 8:** Gentle Cardio
- DAY 9:** All about High-Intensity Interval Training
- DAY 10:** Combo Workout, *Meditation*
- DAY 11:** 20 min. Workout, *Outdoors and Vitality*
- DAY 12:** Movement is A Mindset
- DAY 13:** Mobility & Stretching, *Breathwork Overview*
- DAY 14:** Building Strength, *Incorporating Protein Into Your Meals*
- DAY 15:** 20 min. Workout
- DAY 16:** All about High-intensity Interval Training
- DAY 17:** Gentle Cardio, *Aquatic Yoga Cool Down*
- DAY 18:** Mobility & Stretching, *Gratitude*
- DAY 19:** All about High-intensity Interval Training
- DAY 20:** Strength Session, *Favourite Meal Ideas for Swimmers*
- DAY 21:** Total Body Check In, *Goal Setting Review*

* Check with your doctor first before doing any prenatal exercises in a swim spa.

INTRODUCING THE BACKYARD WATERPARK & AQUATIC FUN! OPTIONS & UPGRADES

TURN YOUR SWIM SPA INTO A WATERPARK

1. CATCH A WAVE

With The AquaAnchor

Are you interested in adding a surf machine to your backyard? Look no further than the Aqua Anchor. Transforming your backyard into the entertainment hub for board sport enthusiasts and general fun lovers has never been easier.

2. UNLEASH THE POWER OF WATER

With The Master Blaster HydroPort

The perfect water park feature for the whole family. Unleash the power of our Hydroport and get ready for non-stop water-blasting action! Automatic fill comes standard, no need to reload.

3. POOL SIDE BLISS

With A Swim Up Bar

Where sun meets thirst. Sip and soak the sun away as you chill out with Swimming pool views at your very own Swim Up Bar.

4. SPLASH RIGHT IN

With The WhiteWater System

Add fun to any Swim Spa with the White Water Option. Imagine swimming in the surf at the ocean or at the local wave pool. The kids will never have so much fun.*

* Cannot be ordered with HydroFlex Air Therapy Option.

EXECUTIVE & AQUATIC SWIM SPA COLLECTIONS OPTIONS & UPGRADES

1. SHELL OPTIONS STANDARD ACRYLIC COLORS*

Your Executive and Aquatic **SELF-CLEANING™** Swim Spas Shells are available in these three colors.

2. CABINET OPTION HYDROWISE CABINETS WITH REMOVABLE PANELS

Hydropool Swim Spas come with our maintenance-free HydroWise material. This premium quality cabinetry is installed onto a sturdy galvanized steel substructure for the ultimate in durability. If you require access to the swim spa plumbing or equipment, all panels are removable for easy access.

COVER OPTIONS

3A. INSULATED HARD COVER

This hard cover option is made from durable marine-grade vinyl. When installed in the closed position it completely seals in the top of the swim spa for improved energy efficiency. Cover Locks exist for securing the cover and keep curious children and pets out for improved safety and security.

3B. ROLLAWAY SPA COVER

This next generation one-piece spa cover creates a complete seal on top of the swim spa; locking in the heat, lowering energy consumption and cost. The Rollaway Spa Cover design enables one person to roll the cover off the swim spa in less than 60 seconds, providing immediate access to the swim spa.

3C. FLOATING SUMMER COVER

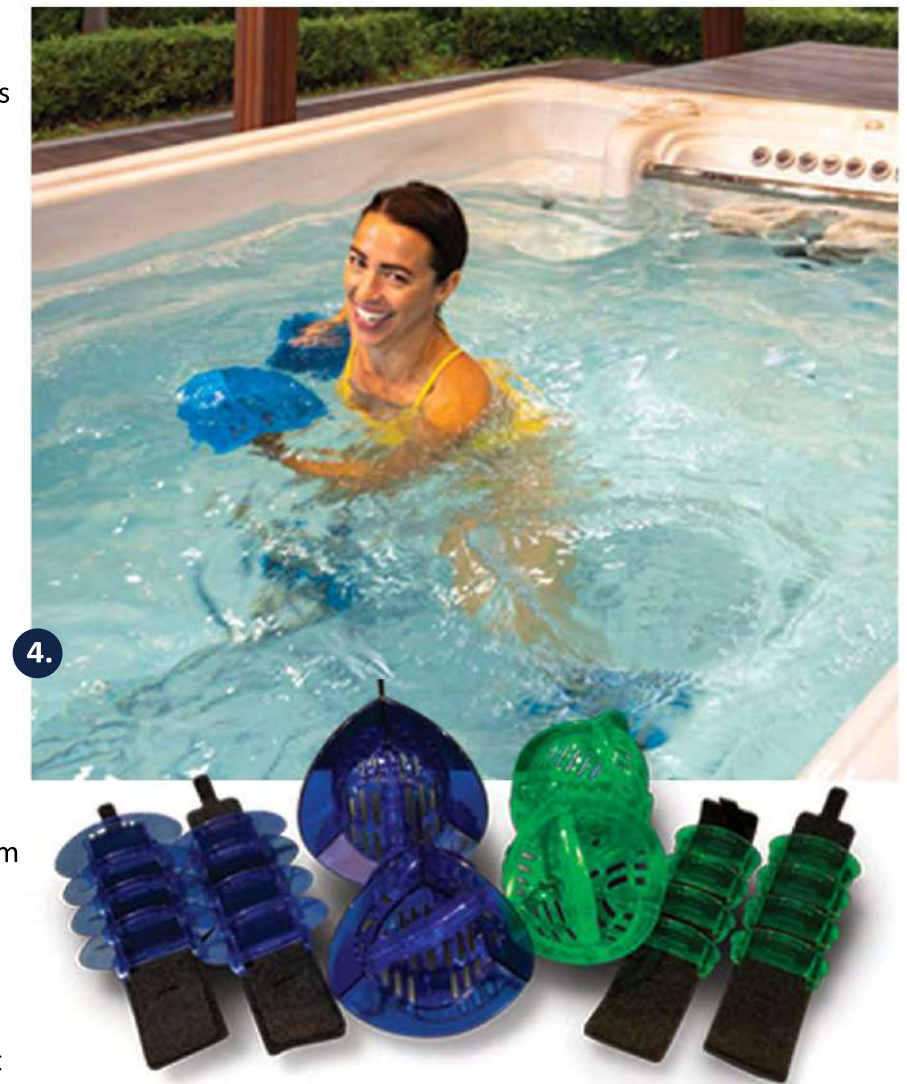

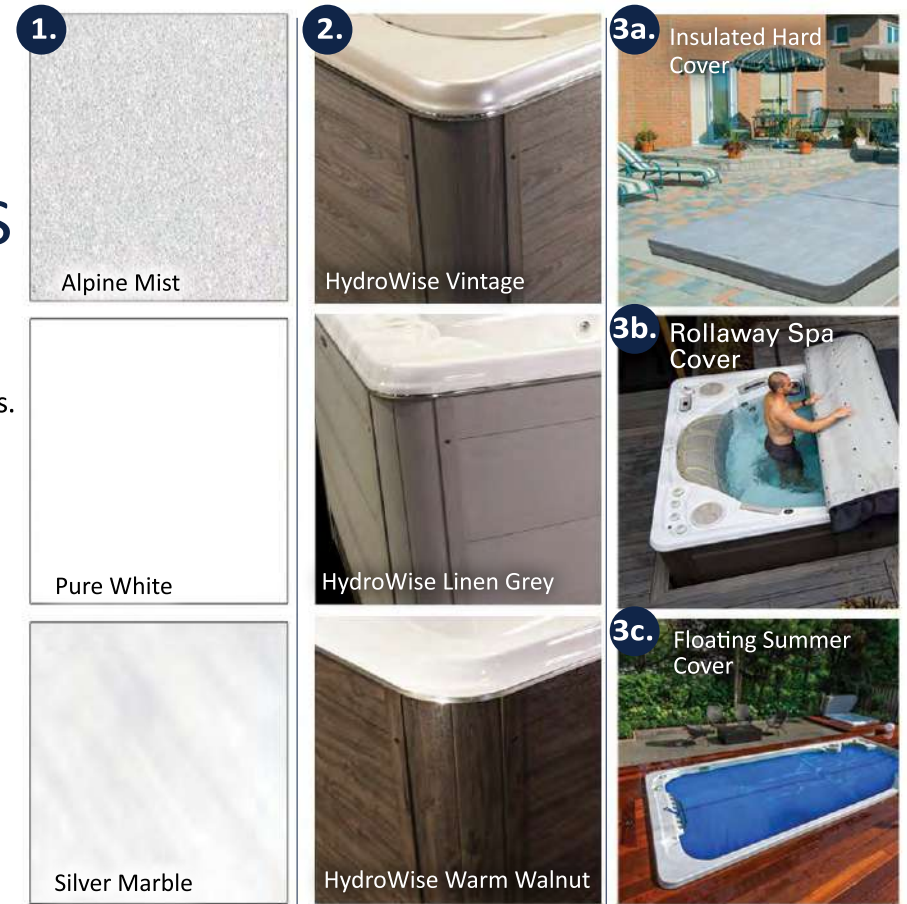

Keeping your swim spa warm and ready for spontaneous usage while conserving energy and staying secure to prevent unwanted debris from entering your swim spa.

4. HYDRO REVOLUTION FITNESS PACKAGE

The addition of this package turns any swim spa into an Aquatic Universal Gym. The resistance bands add another dimension to your workout and can be used anywhere in your swim spa within the exercise or swim tank area. These bands create a full range of motion and help promote muscular development.

5. AQUACORD SWIM TETHER

Includes an adjustable waist belt and stretch cord that anchors to the pop-up latch at the seat end of the swim spa. Providing a great upper body and abdominal workout (swim, jog or exercise).

*Swim Spa shell and cabinet colors may not be exactly as shown due to printing.

OPTIONS & UPGRADES CONTINUED

6. 48" WALL-MOUNTED EXERCISE BAR

These can be mounted within the interior of the swim spa and is intended to act as a stabilizing bar for stretching and various other activities. Alternatively, the wall-mounted 48" exercise bar can be installed on a nearby wall for safety purposes as well.

HYDROTHERAPY OPTION

7. HYDROFLEX AIR THERAPY

Every Variable Speed Air Therapy System is designed to offer you a privileged moment. Up to 10,000 perfectly aimed air bubbles apply ideal pressure to provide you with an encompassing therapeutic massage every time.

* Cannot be ordered with Whitewater Option

8. THERAJET

Here's an addition with all the benefits of a massaging theragun, but adding the nurturing benefits of hydrotherapy. The TheraJet was made to help you massage any area on your body, how you want, when you want. Simply attach the device to an existing jet and you have an instant hydrotherapy device for any part of your body in the palm of your hand. It's that easy to feel that much better.

LIGHTING OPTIONS

9. NORTHERN LIGHTS

This upgrade to LED lights offers strategically placed lighting that illuminates all of the top-mounted control valves. They are brilliantly colored and sequence through a range of options, or can be locked on to one color. They are also complemented by LED lights that illuminate the waterfall jet(s) discreetly from behind.

STEP OPTIONS

10. FIVE-TIER UNIVERSAL STEP

Hydropool's optional five-tier Universal step makes entering and exiting your swim spa safe and easy. These steps come in a black finish.

OTHER POPULAR OPTIONS

11. EZ ULTRA PURE OZONE SYSTEM

The Ozone system is used as a clarifier for your water.

12. PATENTED SMARTTUB® SYSTEM*

Simplified Swim Spa ownership at your fingertips. This exclusive patented, industry-first SmartTub® System is engineered to make it easier than ever to use and maintain your Hydropool Swim Spa from your smart device. Whether on the road or in the comfort of home, you can compare, monitor, and control your spa to harmonize with your life.

* Please Note: Not available on Executive Swim Spas.

13. SECOND ELECTRIC HEATER

Optional for all swim spa models, the Auxiliary Electric heater will help to maintain the temperature of your swim spa during the coldest months.

14. BELLAGIO PACKAGE

Includes the Northern Lights and Bellagio Falls and can be added to any Aquatic or Executive Series swim spa.

15. AUXILIARY/ HEAT PUMP BY-PASS LOOP

When your installation calls for an auxiliary heater, our swim spas can be built with special plumbing that will easily and reliably allow for the addition of a heater. (Includes all of the required plumbing and a check valve for performance and safety).

ALL BACKED BY INDUSTRY-LEADING GUARANTEE

Hydropool Swim Spas are built to stand the test of time and offer an industry-leading guarantee package. For details on coverage inquire with your local Hydropool retailer.

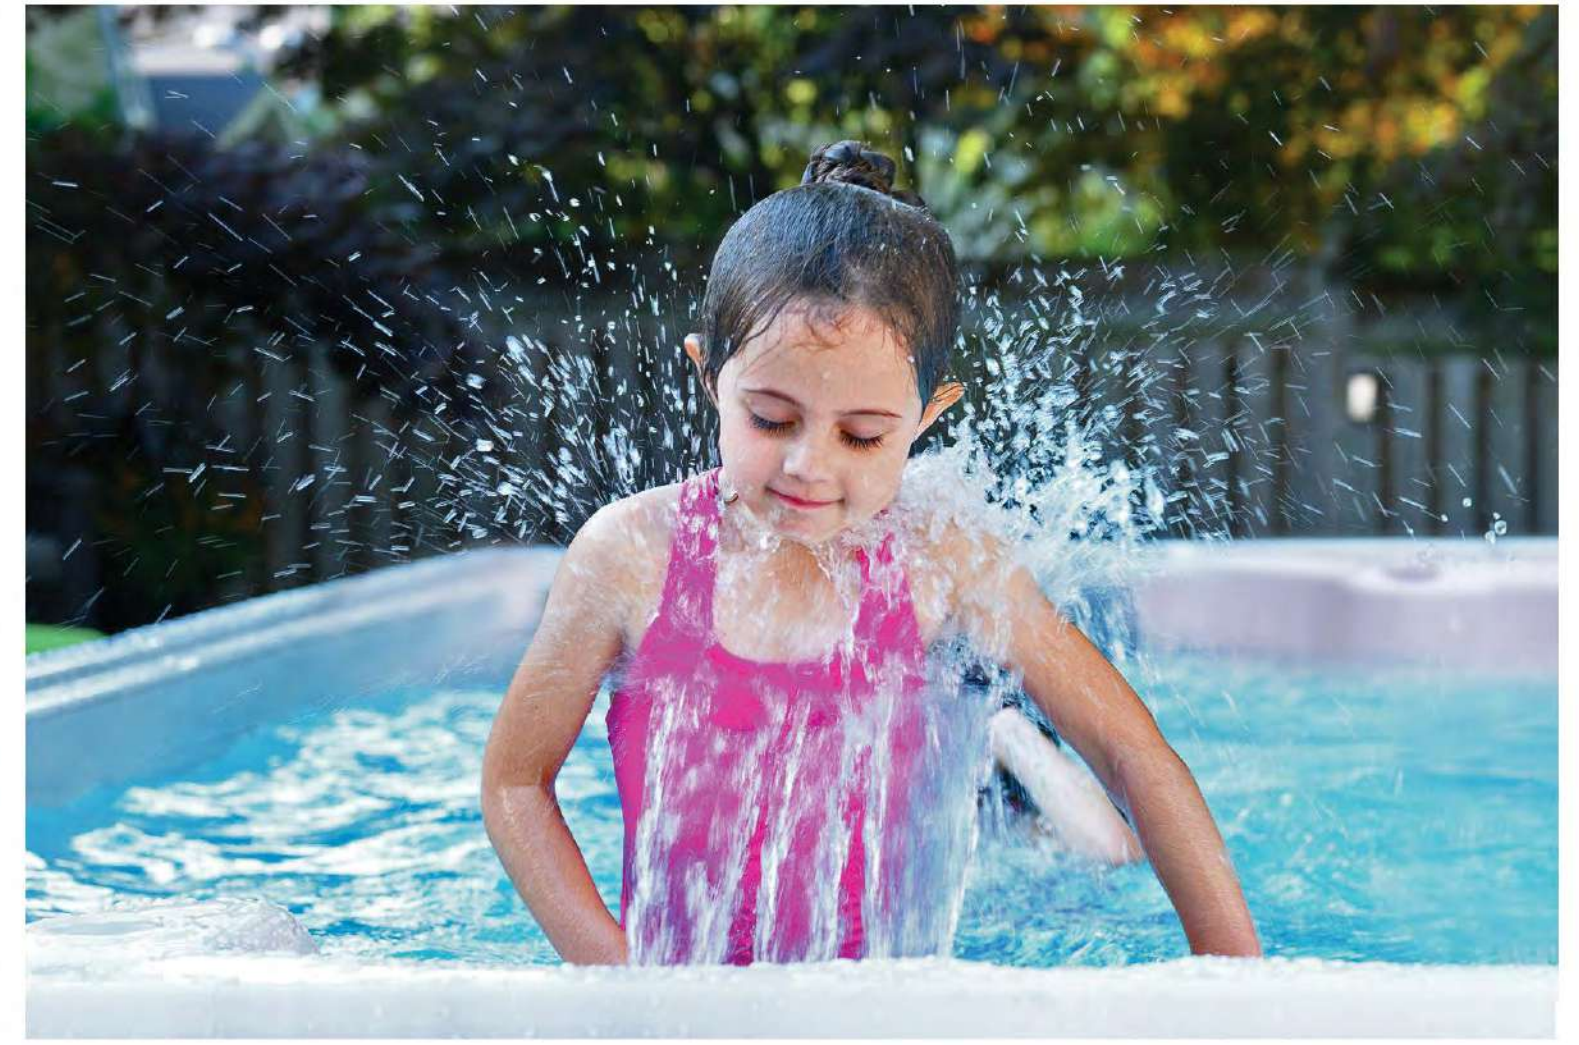

LET YOUR
INNER CHILD
OUT TO PLAY.

THE AQUAPLAY SWIM SPA

THIS IS THE PERFECT MINI POOL FOR FAMILY FUN

The AquaPlay Swim Spa has a generous streamlined swim tank area with plenty of seating for the whole family. The swim tank floor has an anti-slip floor that allows for a variety of fitness routines, jogging in place, BoxFit or Aquatic Cross Train for a great cardiovascular workout. The intensity of your workout is controlled by the speed of your movements and the velocity of the current. You can swim stationary laps for a full body workout, then relax in the contoured seating and enjoy a massage with the built-in hydrotherapy while the rest of the family plays on.

THE 13FFP AQUAPLAY

The ideal backyard pool for fitness, fun and exercise, the 13FFP AquaPlay Swim Spa will more than suit any active lifestyle. This model features two swim jets that mimic the natural resistance of water to help you get the most out of your swim or workout. The contoured seating and massaging jets offer built-in hydrotherapy and relaxation.

AQUAPLAY SWIM SPA COLLECTION STANDARD FEATURES AND OPTIONS

THE SHELL

1. STANDARD ACRYLIC COLOUR

Your AquaPlay Swim Spa is available in Silver Marble only.

THE CABINET

2. HYDROWISE CABINETRY REMOVABLE PANELS

Your AquaPlay Swim Spa comes with our maintenance-free HydroWise finish. This premium-quality cabinetry is embossed with a realistic wood finish.

COVER OPTIONS

3A. INSULATED HARD COVER

This hard cover option is made from durable marine-grade vinyl. When installed in the closed position it completely seals the top of the swim spa for improved energy efficiency. The cover locks down for safety and security.

3B. ROLLAWAY SPA COVER

This one-piece spa cover creates a complete seal at the top of the swim spa, locking in the heat and lowering energy consumption and cost. The cover design enables one person to roll the cover off the swim spa in under 60 secs.

3C. FLOATING SUMMER COVER

Keeping your swim spa warm and ready for immediate usage while conserving energy and staying secure to prevent unwanted debris from entering your swim spa.

AQUAFITNESS OPTIONS

4. HYDRO REVOLUTION FITNESS PACKAGE

The addition of this package turns any swim spa into an Aquatic Universal Gym. The resistance bands add another dimension to your workout and can be used anywhere in your swim spa within the exercise or swim tank area.

5. AQUACORD SWIM TETHER

Includes an adjustable waist belt and stretch cord that anchors to the pop-up latch at the seat end of the swim spa. Providing a great upper body and abdominal workout (swim, jog or exercise).

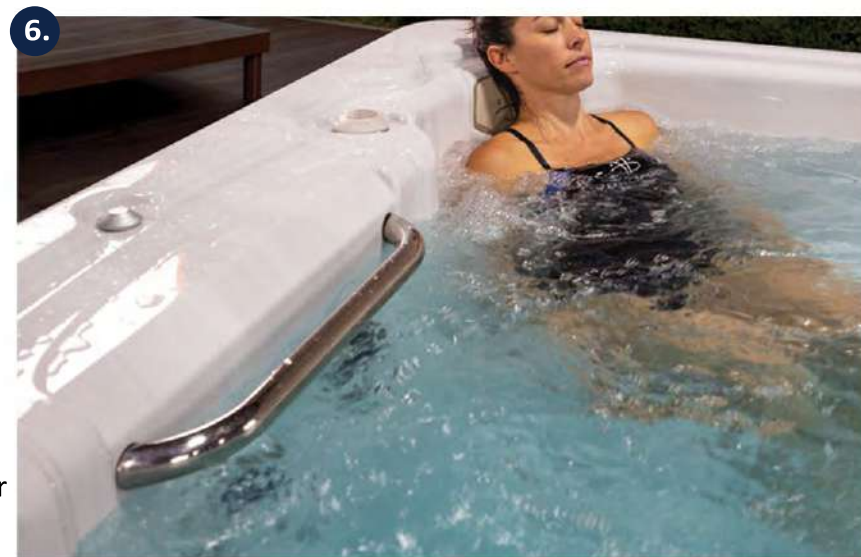

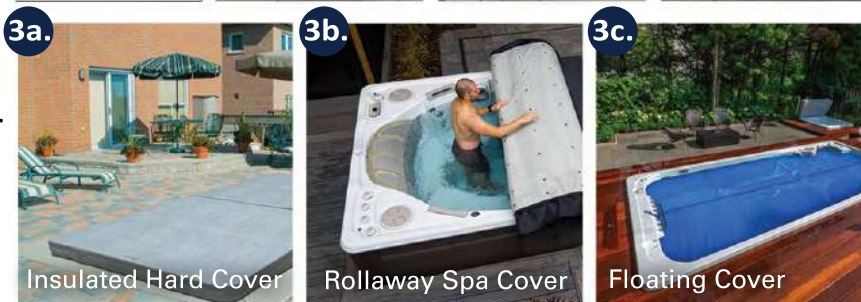

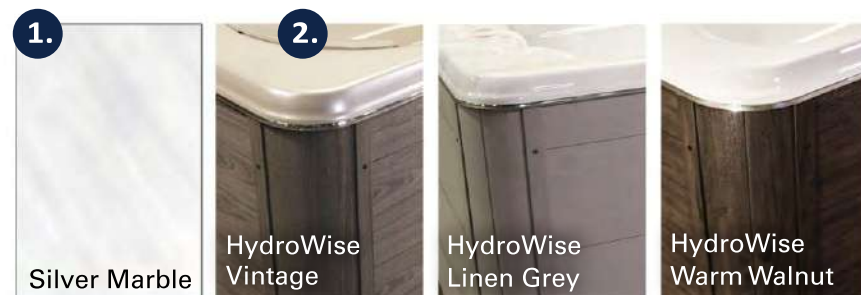

6. 24" WALL-MOUNTED EXERCISE BAR

These can be mounted within the interior of the swim spa and are intended to act as a stabilizing bar for safety, stretching and various other exercise activities.

STEP OPTIONS

7. FIVE-TIER UNIVERSAL STEP

This optional five-tier Universal step makes entering and exiting your swim spa safe & easy. Available in a black finish only.

ALL BACKED BY AN INDUSTRY LEADING GUARANTEE

Hydropool Swim Spas are built to stand the test of time and offer an industry-leading guarantee package. For details on coverage, inquire with your local Hydropool Retailer.

OTHER POPULAR OPTIONS

8. EZ ULTRA PURE OZONE SYSTEM

The Ozone system is used as a clarifier for your water.

9. PUREWATER SYSTEM

An all natural system designed to keep your Hydropool Swim Spa water clean† and clear the way nature intended. This preventative system is designed to stop problems from happening.

10. PATENTED SMART TUB SYSTEM*

Simplified Swim Spa ownership at your fingertips. This exclusive patented, industry-first SmartTub® System is engineered to make it easier than ever to use and maintain your Hydropool Swim Spa from your smart device, whether on the road or in the comfort of home, you can compare, monitor, and control your spa to harmonize with your life. Spas.

11. AUXILIARY ELECTRIC HEATER

Optional for All Swim Spas, the Auxiliary Electric heater will help to maintain the temperature of your swim spa during the coldest months.

12. AUXILIARY/ HEAT PUMP BY-PASS LOOP

When your installation calls for an auxiliary heater, our swim spas can be built with special plumbing that will easily and reliably allow for the addition of a heater. (Includes all of the required plumbing and a check valve for performance and safety).

* May not be exactly as shown and Smart Phone not included.

OUR HISTORY WITH WATER

Over 45 years ago, a father and son had a vision that the power of water could play an instrumental role in a family's everyday life. With their extensive background and knowledge in the swimming pool industry, they decided to expand their business to include both hot tubs and swim spas.

They started as retailers with a company called California Spa, Sauna and Fitness in 1978. This was the very first retailer of hot tubs in Eastern Canada. It was there that Dale and Fred developed their love for the retail side of the business. Quickly realizing the potential for hot tubs, Hydropool was formed in 1980. It quickly became one of the largest manufacturers of hot tubs in North America.

In 1995, Hydropool saw the potential of swim spas, and started to manufacture its first product, the AquaTrainer. Hydropool's growth worldwide has now reached over 400 independent retailers in 60 countries. Hydropool recently added a new 66,000 sq. ft. swim spa manufacturing facility and a new 101,000 sq. ft. parts distribution warehouse. This allows Hydropool to continue to expand to successfully meet all of our consumers' needs. Each of our retailers are professionally trained to assist in selecting your ideal hot tub or swim spa to match your budget and lifestyle needs.

Hydropool Hot Tubs and Swim Spas are manufactured in Mississauga, Ontario, Canada, by experienced designers and engineers. We're always striving to exceed our customer's expectations.

SHARING THE POWER OF WATER AROUND THE GLOBE

We have been sharing our creations and innovations with water through our worldwide network of retailers for more than 45 years.

† Clean is defined as the removal of microscopic (down to 3 µm level, varies by model) debris from the water. Ozone aids in the grouping of small debris. Once combined, the debris can be more easily caught by the filtration process. For more energy rating and HydroGuide information, please refer to our web site at www.hydropoolhottubs.com.
