# WHY CHOOSE A HYDROPOOL HOT TUB?

## START EVERY DAY REFRESHED

Step into warm, soothing water each morning and feel the difference. A quick soak helps improve circulation, loosen tight muscles, and set a positive tone for the day ahead — whether it's tackling work, dropping the kids at school, or heading to the gym.

## YOUR STRESS-FREE ESCAPE

Life feels better when you take time to relax. A Hydropool Hot Tub creates the perfect space to unwind, connect, and share moments that matter. From quiet evenings to lively get-togethers, you'll always look forward to time spent in your personal retreat.

## COMFORT FOR BODY & MIND

Hydropool's advanced hydrotherapy eases muscle tension, relieves stiffness, and supports joint comfort. Warm water therapy can help soothe everyday aches, promote flexibility, and even reduce the stress that often triggers headaches.

## SLEEP MORE SOUNDLY

A soak before bed prepares your body for deeper, more restful sleep. Improved circulation and gentle relaxation help release tension, so you drift off faster and wake up feeling renewed.

"We call our hot tub 'Hydropool Heaven.' After a long day at the office, it's great coming home to our little piece of heaven."

# LET'S TALK ABOUT WELLNESS

HydroPool's exclusive Zone Therapy™ goes deeper than relaxation. It's a system designed with input from wellness experts to help your body and mind feel their best. Each seat, jet, and sequence works together to create a personalized usage map of your hot tub, guiding you through a routine that relieves tension, restores energy, and leaves you with a lasting sense of well-being.

## THE FOUR KEY ELEMENTS OF ZONE THERAPY™

1.

### SEATING DESIGNED AROUND YOU

- Ergonomic seats cradle your body for maximum comfort.
- Relieves pressure on muscles and joints, letting you fully relax.

2.

### PURPOSE-BUILT JETS

- High-flow, low-pressure "No Sting" jets deliver soothing comfort.
- **MESSAGE PATTERNS:** Percussion, Muscle Release, Deep Tissue — created by experts for targeted relief.

3.

### PERSONALIZED MESSAGE

- **JET FLEX** lets you swap jets to tailor your experience.
- Adjust water/air mix and intensity for your perfect massage.

4.

### DURATION AND SEQUENCE

- Time in each seat optimizes your therapy.
- Following the recommended sequence maximizes wellness benefits.

#### HYDROPOOL ZONE THERAPY™

isn't one-size-fits-all — it's built to adapt to you.

# HOW DOES ZONE THERAPY WORK?

Hydropool's exclusive **ZONE THERAPY™** blends advanced ergonomics with hydrotherapy to give your body the care it needs most. Each zone is designed to target specific muscle groups, reduce tension, and restore balance — creating a natural path to wellness with every soak.

**ZONE 1  
CORE  
ZONE**

- Activates muscles that support the spine.
- Relieves fatigue that can contribute to headaches and back tension.

**ZONE 2  
OVERALL  
BODY  
ZONE**

- Stimulates leg and lumbar muscles.
- Improves circulation, helping you feel lighter and more energized.

**ZONE 3  
UPPER  
BODY  
ZONE**

- Targets upper back, neck, and shoulders.
- Eases tension and promotes relaxation where stress builds most.

**ZONE 4  
REFLEXOLOGY  
ZONE**

- Focuses on the arches of your feet.
- Deep massage helps release pressure and supports overall circulation.

Optional **COLOR THERAPY** and **AIR THERAPY** can further enhance the experience, turning every soak into a personalized wellness journey.

HYDROPOOL EXCLUSIVE FEATURE

## **SELF-CLEANING**<sup>TM†</sup> **TECHNOLOGY**

IN THE WORLD'S ONLY **SELF-CLEANING**<sup>TM†</sup> HOT TUB

One of the biggest barriers to enjoying a hot tub is maintenance. Hydropool solved that with our exclusive **SELF-CLEANING**<sup>TM†</sup> System — so you spend less time cleaning and more time soaking.

- **100% CLEAN WATER, EVERY 10 MINUTES**

The **SELF-CLEANING**<sup>TM†</sup> System filters and cleans all the water in just 10 minutes — that's 144 complete clean cycles every day. No other hot tub does this.

- **QUICK DRAIN, NO HASSLE**

Our No Sump Pump Quick Drain makes emptying your hot tub fast and easy, pumping water away to any distance or grade.

### **INNOVATION THAT WORKS FOR YOU**

- This isn't a simple vacuum — it's a multi-technology system designed to keep your water fresh, clear, and virtually effortless to maintain.

With Hydropool, clean water isn't a chore. It's automatic.

# THE WORLD'S ONLY **SELF-CLEANING**<sup>TM</sup> HOT TUB AND THE SIX ELEMENTS OF THE **SELF-CLEANING**<sup>TM</sup> SYSTEM.

## 1. HYDROCLEAN<sup>+</sup> FILTRATION JETS & PUMP

- 35 GPM, 24-hour circulation pump keeps water moving quietly and efficiently.
- Strategically placed jets create continuous water flow, pushing debris to the skimmer.

## 2. FAST FLOW FILTER/SKIMMER

- Removes oils, lotions, and floating debris for water and surfaces that stay clear.
- Protects pumps & heater while extending filter life.

## 3. HYDROCLEAN<sup>+</sup> FLOOR VACUUM

- Built in Floor Vacuum - No need to Vacuum the hot tub.
- Circulates watercare products more effectively.

## 4. PUREWATER SYSTEM ALL NATURAL SYSTEM

- Combines **ACTIVE OXYGEN + UVC LIGHT** to treat the water naturally.
- Reduces chemical use by 50%, keeping water fresh, safe, and crystal clear.

## 5. PRESSURIZED MICRO-FILTRATION

- Cleans 100% of the water every 10 minutes
- Filters even the smallest particles with Microban protection.

## 6. WATERCARE SYSTEM

- Gently dispenses water care products out of sight, right where they're needed.
- Keeps your hot tub safe, healthy, and crystal clear.

HYDROPOOL EXCLUSIVE FEATURE

## BUILT IN CANADA FOR THE COLDEST CLIMATES

Built in Canada by those who understand the coldest climates. With **HYDROWISE ENERGY EFFICIENT INSULATION** and our **EVERLAST THERMAL COVER**, we've mastered the art of keeping heat in and the cold out.

The result? The most energy-efficient hot tubs in the world — so you can enjoy warm, relaxing water year-round for just pennies a day.

### PEACE OF MIND GUARANTEE

Hydropool Hot Tubs are built to last, and we stand behind every spa with one of the strongest guarantees in the industry:

- **10 YEARS: STRUCTURAL FRAME**
- **5 YEARS: SHELL SURFACE**
- **3 YEARS – EQUIPMENT & COMPONENTS**

Because when you choose Hydropool, you're not just buying a hot tub — you're investing in years of comfort, confidence, and relaxation.

# ENGINEERED SMARTER. BUILT STRONGER.

Hydropool hot tubs are designed from the ground up with two promises: unmatched strength and best-in-class efficiency. From the frame to the smart systems inside, every detail works together to lock in heat, lower costs, and deliver lasting performance.

## 1. EVERLAST STEEL FRAME & PRO POLYMER BASE

- Strongest frame in the industry — galvanized steel won't rust or rot.
- Fully sealed base locks heat in and keeps the cold out.

## 2. HYDROWISE THERMAL SHIELD + EVERLAST COVER

- Advanced insulation that traps heat and blocks cold.
- Best-in-class energy efficiency, according to CEC data.

## 3. HYBRID HEATING

- Each pump generates 1.5 kW of free heat.
- Reduces reliance on the heater for lower running costs.

## 4. ECOHEAT EXCHANGE TECHNOLOGY

- Adjustable thermal vents recycle pump and component heat.
- Maximizes efficiency in any season, any climate.

## 5. HEAT PUMP BYPASS TECHNOLOGY (OPTIONAL)

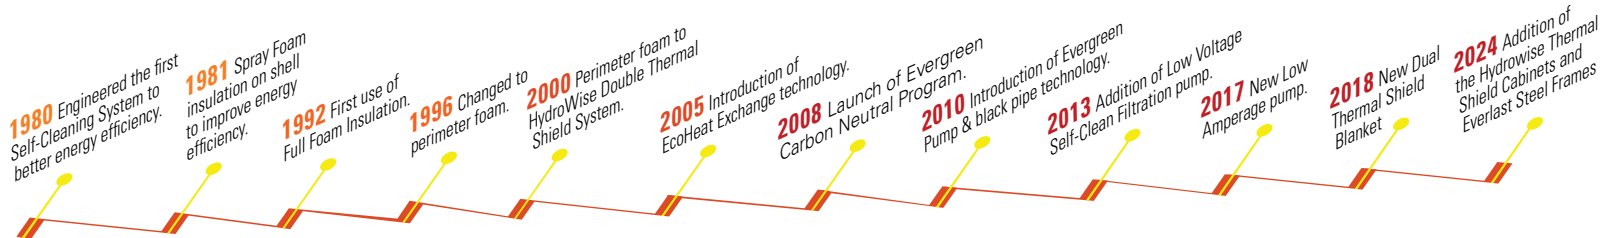

- Eco-friendly option for year-round savings.
- Dual functionality: heat in winter, cool in summer.

## 6. SMARTTUB® WITH SMART HEAT

- Set your schedule and desired temperature once.
- System automatically optimizes heating based on local weather and usage.

**THE RESULT:** A best-in-class energy-efficient hot tub that's as tough as it is smart.

**WE HAVE ALWAYS BEEN DEVELOPING NEW WAYS TO BETTER OUR ENERGY EFFICIENCY...**

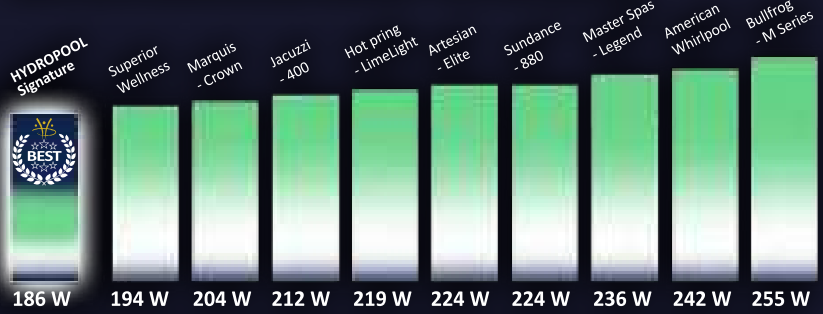

# WE ARE BEST IN CLASS WHEN COMES TO ENERGY EFFICIENCY

Thanks to our innovative HydroWise Energy Efficient Insulation and our superior 4 inch Everlast Thermal Cover, we've mastered the art of keeping the heat in and the cold out. Combine this with the fact that our hot tubs are engineered to be the most energy efficient in the world. Meaning, you can enjoy your hot tub for just pennies a day.

# SERENITY HOT TUBS ARE BUILT TO LAST FROM THE GROUND UP

Every Serenity Hot Tub is engineered from the ground up to deliver strength, efficiency, and year-round comfort. At the core is our new **EVERLAST FRAME** that cradles the durable **EDGEWATER SHELL**, all sealed by a Polymer Insulated Floor that locks in heat and keeps the cold out.

This creates a fully sealed system that performs in any climate: in winter it holds the warmth, and in summer it regulates temperature with our **ECOHEAT EXCHANGE VENTS** for maximum efficiency.

## 1. POLYMER INSULATED FLOOR

A fully sealed base designed to keep heat in and cold out — the foundation of our WeatherSeal Insulation System.

## 2. UNIBODY FRAME

The strongest frame in the industry, engineered to support the weight of water while adapting to seasonal temperature changes.

## 3. EDGEWATER SHELL

Built to be 100% waterproof. Reinforced with fiberglass, polyester, and vinyl ester resin for unmatched strength and durability.

5.

#### 4. HYDROWISE THERMAL BLANKETS

NASA-inspired technology reflects residual heat from the pumps, shell, and plumbing back into the spa — meaning your heater runs less and you save more.

*Please Consult our Hydrowise Energy Guide.*

#### 5. WEATHERSEAL CABINET REFLECTS RADIANT HEAT

Reflects radiant heat back inside the spa to maximize efficiency. Panels are fully removable for easy service access.

#### 6. HYBRID HEAT ADVANTAGE

Captures and reuses radiant heat from plumbing and equipment, dramatically lowering energy costs.

#### HYDROWISE VINYL COVER

A heavy-duty, locking safety cover that keeps animals out, children safe, and energy locked in.

6.

**OPTIONAL: PUREWATER™ UPGRADE**

For the ultimate in water care, Serenity Hot Tubs can be upgraded with the PureWater™ System, which combines Active Oxygen + UVC light to treat water naturally, reducing chemical use by up to 50%.

1.

**THE CLEARSPRING™ FILTRATION SYSTEM**

Clean, healthy water is at the heart of every Serenity Hot Tub. That's why every model includes the ClearSpring™ Filtration System — a four-stage process that keeps water cleaner†, clearer, and easier to maintain.

With advanced micro-fiber filters and smart design, it removes everything from large debris to the tiniest particles, keeping your spa water fresh and inviting.

**HOW IT WORKS**

**1. ULTRA FLOW GRILL & SKIMMER NET**

Your first line of defense. The Ultra Flow Grill maximizes circulation while the Skimmer Net captures larger debris — keeping it from ever re-entering your hot tub.

**2. DUAL FILTRATION**

Two Microban™ filters maximize surface area to trap even the smallest particles. Infused with Microban™ technology, the pleats resist bacteria growth for cleaner†, longer-lasting performance with a built-in water care dispenser.

**3. EVERGREEN PUMP**

Filters 87 US Gallons of spa water per minute and has an energy efficient design.

**4. KLEEN SWEEP™ TECHNOLOGY**

Strategically placed floor jet works in tandem with the filtration system, creating a continuous water flow that pushes both floating and sunken debris toward the filtration intake.

2.

4.

# SCIENCE OF IMMERSION IN A SERENITY HOT TUB

Hydropool has taken the **SCIENCE OF IMMERSION** to the next level. By combining our knowledge of **ZONE THERAPY™** and the ergonomics of the human body, every Serenity Hot Tub is designed to interact with you in the most natural and effective way possible.

Because no two people are the same — our genetics, lifestyles, and stress levels all play a role — Serenity's Zone Therapy adapts to how your body responds, helping you release tension and achieve a deeper sense of well-being.

## ZONE THERAPY™ HOW IT WORKS

Each Serenity Hot Tub is divided into four therapeutic zones, designed to target specific areas of your body:

### ZONE 1: CORE ZONE

Activates the paravertebral muscles along your spine. Releases tension that can contribute to headaches.

### ZONE 2: OVERALL ZONE

Stimulates the legs and lumbar muscles, improving circulation and relieving heavy, tired legs.

### ZONE 3: UPPER BACK ZONE

Targets the upper back, neck, and shoulders — easing tension in trapezoid muscles and releasing stress around the solar plexus.

### ZONE 4: REFLEXOLOGY ZONE

Deeply massages the foot arch muscles, providing relief where your body bears the most stress.

## THE FOUR ELEMENTS OF ZONE THERAPY

To maximize the benefits of hydrotherapy, each zone is built on four key principles:

### 1. TYPE OF JETS

Each jet is designed with a purpose, from deep tissue relief to gentle massage.

### 2. JET PLACEMENT

Precisely positioned to work with specific muscle groups for maximum effect.

### 3. ERGONOMIC SEATING

Seats cradle your skeletal structure, removing stress from muscles and joints so your body can fully relax.

### 4. DURATION & SEQUENCE

Moving through each zone in the right order and spending the right time in each seat enhances the full therapeutic effect..

## THE SERENITY 4300

### 4-PERSON HOT TUB WITH LOUNGE

Small but mighty, the Serenity 4300 is designed to bring the luxury of a lounge seat to patios, balconies, or tighter backyard spaces. Don't let the size fool you — it delivers a full-body soak in a compact footprint.

**BEST FOR:** Couples or small families who want a lounge in a space-saving design.

**NOT FOR:** Those who need more room — consider the **4500** for another 4-seat option or the **6600** for a true family-sized spa.

# PERSONALIZE YOUR SERENITY

Every Serenity Hot Tub can be tailored with options and upgrades designed to fit your lifestyle. From lighting that sets the mood to advanced water care that makes ownership effortless, these choices let you create a spa experience that's truly yours.

## 1. SERENITY MOONFALL PACKAGE

Transform your spa into a glowing retreat with two premium upgrades in one:

### • AQUABLADE WATERFALLS

Two illuminated pop-up jets create a cascading blade of water into your Serenity Hot Tub, lit in sequence with the Moon Lighting system.

### • MOON LIGHTING

LED corner and deck-control lighting that illuminates both the exterior and interior seating area. Choose your favorite color or enjoy a soothing color cycle.

## 2. PATENTED SMARTTUB® SYSTEM\*

Simplify hot tub ownership with Hydropool's exclusive SmartTub® technology. Monitor, control, and adjust your spa from anywhere using your smart device — whether you're at home or on the go.

## 3. PUREWATER SYSTEM (OPTIONAL)

Hydropool's advanced water care option, combining Active Oxygen + UVC light to naturally treat water. Reduces chemical use by up to 50% while keeping your spa water safe, fresh, and crystal clear.

## 4. TWO TIER UNIVERSAL STEP

A sturdy, stylish step that makes entering and exiting your Serenity Hot Tub safe and easy.

## 5. ACRYLIC COLOR OPTIONS

Choose from a wide range of finishes to match your style:

## 6. STANDARD CABINET COLORS

Your Serenity Model 4300, 4500, 5900, 6600, 6800 and 6900 hot tubs all come in your choice of two colors: Designer Harbor Grey and Designer Driftwood.

## 7. COVER LIFTERS

### STANDARD COVER REMOVER:

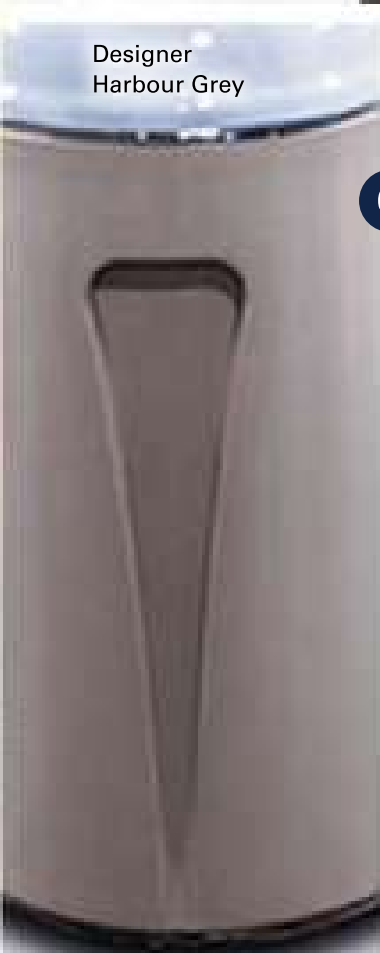

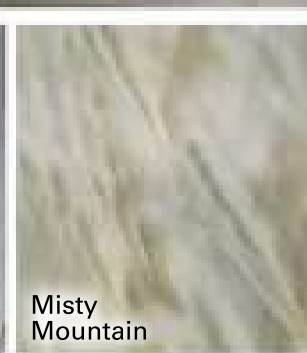

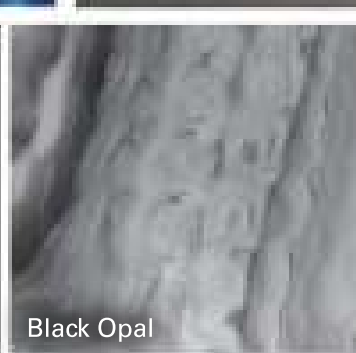

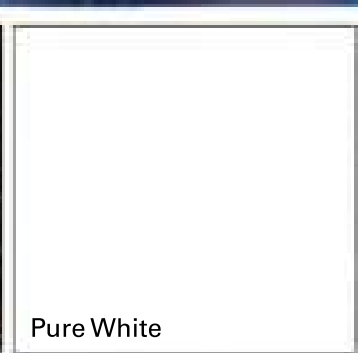

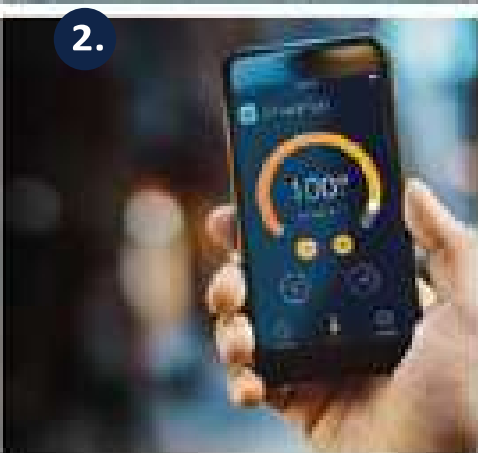

Side or deck-mounted with patented sliding brackets for easy installation.

### HYDRAULIC COVER REMOVER PLUS:

Dual 80 lb. gas shocks lift your cover with ease; works even for in-ground installations.

# THE AQUAPLAY FAMILY HOT TUB

## THIS IS THE PERFECT LARGE HOT TUB FOR FAMILY FUN

Looking for a hot tub that's perfect for the whole family? The AquaPlay Hot Tub combines the relaxation you expect from HydroPool with a spacious design made for active living. Its generous tank area and anti-slip floor give you room to move - whether that's jogging in place, cross-training, or swimming stationary laps. When the workout's done, sink into the contoured seats and let the massaging jets melt away tension while the kids keep playing.

### THE 13FFP AQUAPLAY

The 13FFP is the ultimate family hot tub for an active backyard. With two swim jets that mimic the natural resistance of water, it doubles as your fitness zone and your relaxation space. Built-in hydrotherapy seating delivers the full hot tub experience, while the open tank gives everyone room to enjoy. **It's fitness, fun, and relaxation all in one — the hot tub every family can agree on.**

### 1. STANDARD ACRYLIC COLOUR

Your AquaPlay Swim Spa is available in Silver Marble only.

## THE CABINET

### 2. HYDROWISE CABINETRY REMOVABLE PANELS

This premium-quality cabinetry is embossed with maintenance-free, realistic wood HydroWise finish.

### 3A. INSULATED HARD COVER

Made from durable marine-grade vinyl. When closed position it completely seals the top of the hot tub for improved energy efficiency. The cover locks down for safety and security.

### 3B. ROLLAWAY SPA COVER

A one-piece spa cover creates a complete seal of the top edge of the hot tub, locking in the heat lowering energy consumption and cost. Cover can be rolled open in under 60 secs.

### 3C. FLOATING SUMMER COVER

Keeping your AquaPlay warm and ready for immediate usage while conserving energy and staying secure to prevent unwanted debris from entering.

### 4. HYDRO REVOLUTION FITNESS PACKAGE

This package turns the AquaPlay into an Aquatic Universal Gym. The resistance bands add another dimension to your workout and can be used anywhere within the swim tank area.

### 5. AQUACORD SWIM TETHER

Includes an adjustable waist belt and stretch cord that anchors to the pop-up latch at the seat end of the hot tub. Providing a great upper body and abdominal workout (swim, jog or exercise).

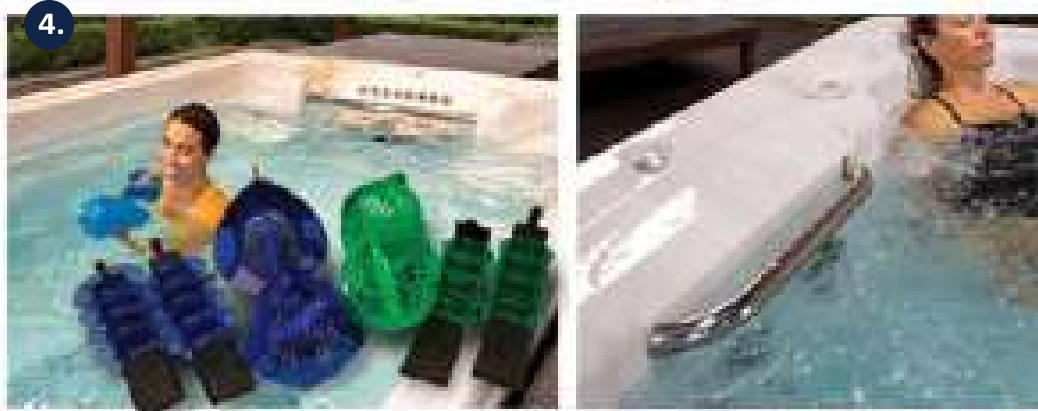

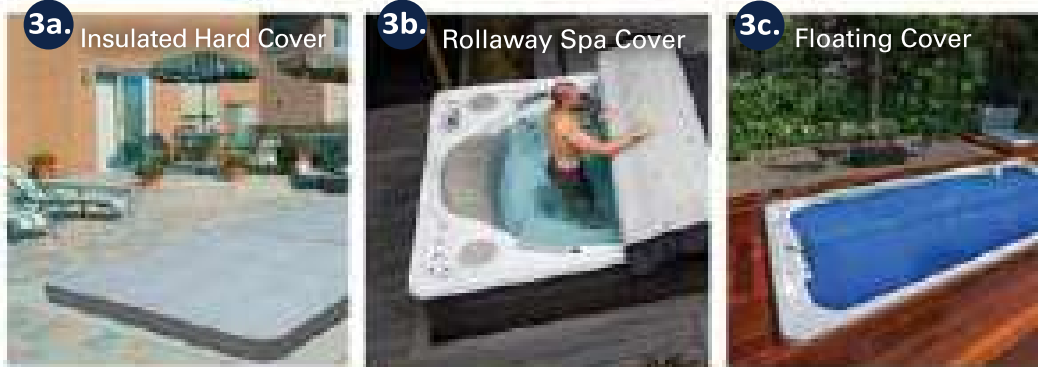

### 6. FIVE-TIER UNIVERSAL STEP

This optional five-tier Universal step makes entering and exiting your hot tub safe & easy. Available in a black finish only.

## OTHER POPULAR OPTIONS

### 7. PUREWATER SYSTEM

An all natural system designed to keep your AquaPlays' water clean† and clear the way nature intended. This preventative system is designed to stop problems from happening.

### 8. PATENTED SMART TUB SYSTEM\*

Simplified Swim Spa ownership at your fingertips. This exclusive patented, industry-first SmartTub® System is engineered to make it easier than ever to use and maintain your Hydropool hot tub from your smart device from anywhere. Refer to Pages 7-8 for details.

### 9. AUXILIARY ELECTRIC HEATER

Optional for AquaPlay, the Auxiliary Electric heater will help to maintain the temperature of your swim spa during the coldest months.

### 10. AUXILIARY/ HEAT PUMP BY-PASS LOOP

When your installation calls for an auxiliary heater, our AquaPlay can be built with special plumbing that will easily and reliably allow for the addition of a heater.

(Includes all of the required plumbing and a check valve for performance and safety).

### ALL BACKED BY AN INDUSTRY LEADING GUARANTEE

Hydropool Swim Spas are built to stand the test of time and offer an industry-leading guarantee package.

## OUR HISTORY WITH WATER

For over 45 years, Hydropool has believed in the power of water to transform everyday life. What began as a father-and-son vision in 1978 has grown into one of the world's most trusted names in hot tubs and swim spas.

Dale and Fred, our founders, opened California Spa, Sauna & Fitness — the very first hot tub retailer in Eastern Canada. From those early days, they discovered a passion for helping families bring the joy of water into their homes.

By 1980, Hydropool was born. What started as a small Canadian company quickly grew into a leading hot tub manufacturer across North America. In 1995, we pioneered a new category by introducing our first swim spa — the AquaTrainer — and helped shape the way the world experiences water at home.

Today, Hydropool partners with more than 400 independent retailers in over 60 countries. With state-of-the-art manufacturing in Mississauga, Ontario, and expanded facilities dedicated to swim spa innovation and parts distribution, we continue to grow while staying true to our roots: quality, innovation, and care.

From our Canadian headquarters to backyards around the globe, every Hydropool Hot Tub and Swim Spa carries the same promise — to exceed expectations and make water a source of comfort, connection, and well-being for families everywhere.

## SHARING THE POWER OF WATER AROUND THE GLOBE

We have been sharing our creations and innovations with water through our worldwide network of retailers for more than 45 years.

\*Clean is defined as the removal of microscopic (down to 3 µm level, varies by model) debris from the water. Ozone aids in the grouping of small debris. Once combined, the debris can be more easily caught by the filtration process.
