The Water is Calling

The power of water

It feels like life is more hectic than it's ever been. Families are always trying to balance their goals and dreams with the responsibilities of everyday life. It's all part of the journey to a life well-lived.

MAYBE THAT'S WHY WE'RE SO DRAWN TO WATER.
Think about it. 70% of the world population lives within 100 km's of water. We seek it out for our vacations and our summer getaways. Water is life's game changer.

There's something magical, even magnetic, about it. It can be playful and lively when life gets a bit heavy, but it can also soothe even the most weary bones. We feel a sense of freedom when we're around it, but it also has the power to bring a whole family together. On our worst days, we can literally hear the water calling to us.

At Hydropool we understand the power of water and the role it can play in living our best life. That's why we've made it our mission to harness the magical, magnetic power of water with innovation, creativity & imagination built into all of our swim spas and hot tubs. It's the perfect ingredient for training or just staying fit, for reconnecting, having some fun or relaxing moment at the end of the day.

HYDROPOOL
hot tubs · swim spas

THE WATER IS CALLING.

Our history with water

Over 40 years ago, a father and son had a vision of how the power of water could play an instrumental part in a family's everyday life. With their extensive background in swimming pools they decided to expand the company to include both Swim Spas and Hot Tubs.

They first started as retailers with a company called California Spa, Sauna and Fitness in 1978. This was the first retailer of hot tubs in Eastern Canada. It was there Dale and Fred developed their love for retail.

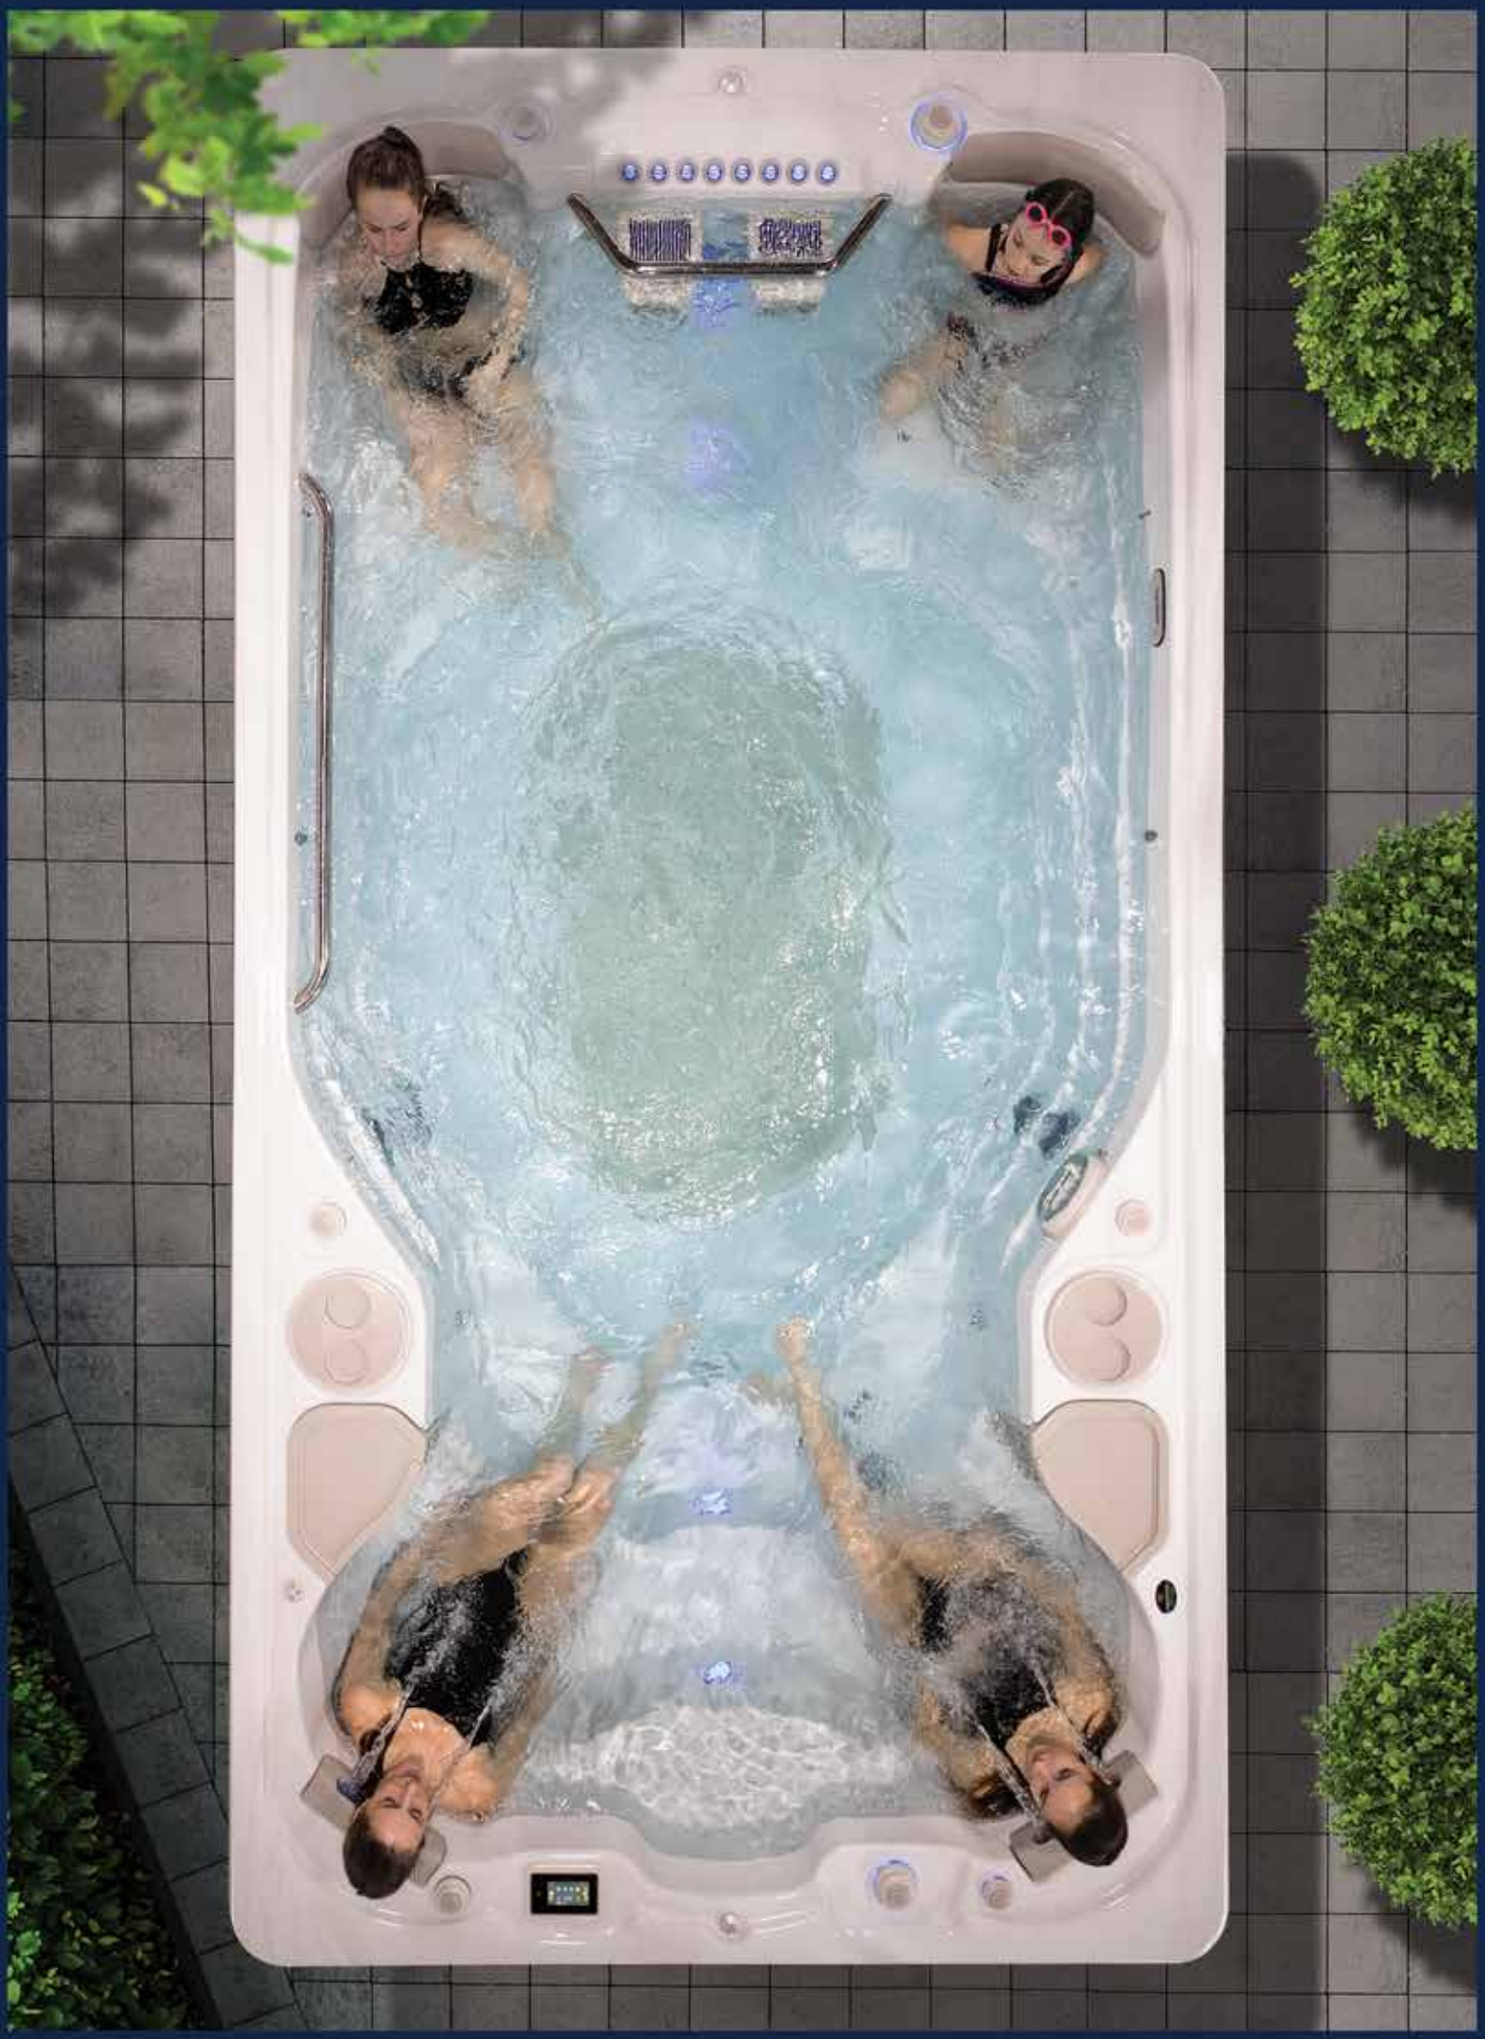

Realizing the potential of Hot Tubs, they then formed Hydropool in 1980. Hydropool, quickly became one of the largest manufacturers of Hot Tubs and Swim Spas in North America. In 1995 Hydropool saw the potential of Swim Spas and started to manufacture the AquaTrainer Swim Spa. Hydropool's growth worldwide has reached over 400 retailers in 60 plus countries.

We recently added a new 66,000 sq ft Swim Spa manufacturing facility and a new 101,000 sq ft parts distribution warehouse which allows Hydropool to continue to expand to meet all our consumers needs. Each of our retailers are professionally trained to assist in the proper selection of the ideal hot tub or swim spa to match your needs based on your budget and stated lifestyle.

Hydropool Swim Spas and Hot Tubs are manufactured in Mississauga, Ontario, Canada, by experienced designers and engineers, ensuring that we continue to exceed our customer's expectations.

HYDROPOOL
hot tubs · swim spas

THE WATER IS CALLING.

What makes Hydropool different?

START YOUR DAY OFF RIGHT WITH THE PERFECT SWIM

Hydropool Swim Spas are the perfect way to swim every day. Imagine never having to turn, touch or push off from any wall. Our swim current gives you the ability to focus on your stroke technique and enjoy the fluidity of the swim current adjusted to your personal swim level. Our Swim Jet Design provides a wider, deeper, smoother current and our tank design has no hidden obstacles like steps or benches for your feet to hit in the swim lane, giving you a far superior swimming experience than any other swim spa available today.

OWNERSHIP MADE EASY IS BUILT IN

The patented self-cleaning feature minimizes maintenance thus leaving you more time to get into the swim spa to train, enjoy family and friends. You'll look forward to your times in your swim spa. Hydropool Swim Spas are also a great water feature for entertaining. Your guests will leave with fond memories.

FLEXIBILITY, PRACTICALITY AND NOT TO MENTION ENERGY EFFICIENCY

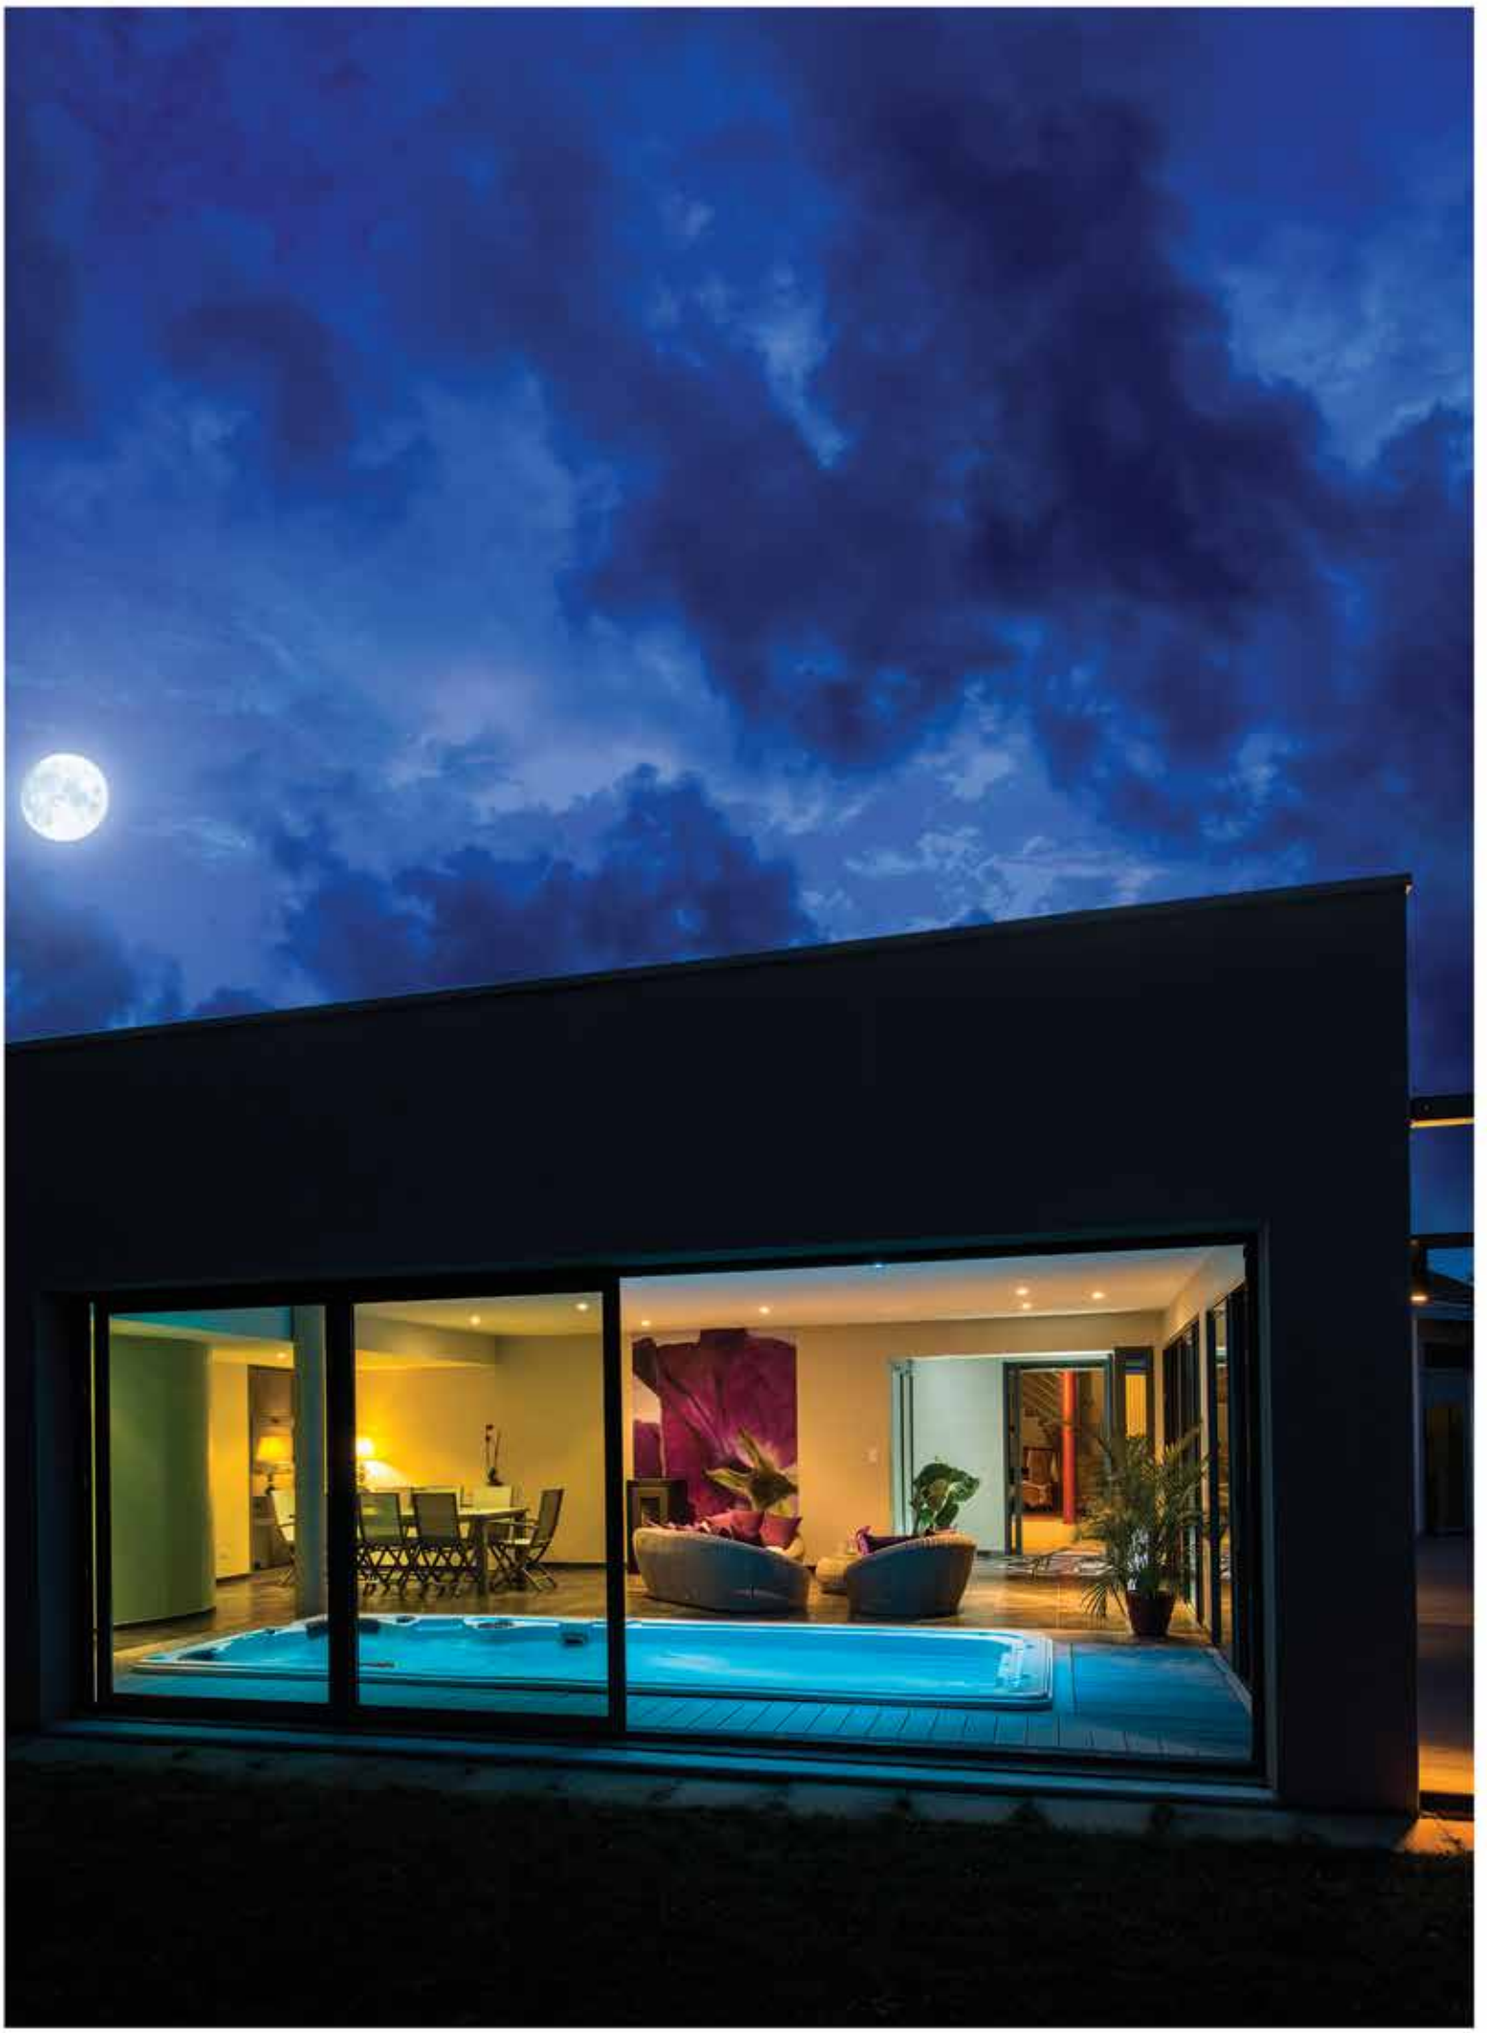

Whether it is a Play, Aquatic, or Executive Swim Spa you will enjoy the best of all worlds for fun and fitness. Our products will exceed your expectations while providing the best possible solution for your needs. The Hydropool Swim Spa's HydroWise Thermal Shield Technology with our energy-efficient components and our thick, energy conserving hardcover, keeps operating costs to a minimum all year round. Being smaller than a conventional pool, our Swim Spas require less chemicals, less maintenance and less energy to heat and operate.

WE STAND BEHIND THE QUALITY OF OUR SWIM SPAS

We offer a straight forward, no-nonsense protection. We offer an industry leading guarantee on Hydropool Swim Spas - Ask your retailer for details.

""The Swim Spa by Hydropool fits perfectly into our small backyard and has provided my family with all the benefits of a larger pool."

M. ZALEWSKI,
BURLINGTON, ONTARIO

LOCATION: Antides, France **RETAILER:** Clair Azur

Innovation at the heart of your swim

1. PURE WATER SYSTEM Harnesses nature's power for cleaner safer water

The Hydropool PureWater AOP System is the safest, easiest and most advanced water purification system on the market today.

Ozone

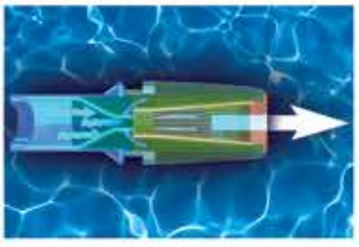

Water is first treated with ozone, nature's most powerful cleaning agent, rapidly oxidizing pathogens in the water.

UV Light

The Ozone enriched water is then exposed high to volume of UVC light, similar to most drinking water systems.

Active Oxygen Production

This unique combination of UVC light and ozone in our PureWater system creates active oxygen and hydroxyl radicals treating 99.9% of all contaminants, reducing chemical and chlorine dependency to near drinking water levels.

2. V-TWIN JETS: The patent behind our Jet Propulsion System

The V-Twin Jets are the most powerful, predictable and non-turbulent jets on the market today.

a. Shredding the Vortex

Pumps or propellers create a spinning vortex of water when travelling up a pipe to the jet. The V-Twin Jet is designed to organize and shred the vortex using the combination of our Current Collector and Swim Fins, creating a smooth swim.

b. Doubling the volume of water

The first "V" of the V-Twin jet accelerates the water. The second "V" then combines that water with the water drawn in from the swim gills to produce and amazing 1400 gallons of water. The highest volume of water in the industry.

3. FORM SWIM GOGGLES WEARABLE TECHNOLOGY: The ability to track your swim is right in front of your eyes

So how do our new FORM® Swim Goggles work?

These Swim Goggles were developed in collaboration with top competitive swimmers and coaches; they are the only goggles built with see-through real time display that can be viewed by your left of right eye, depending on your preference.

FORM® Swim Goggles can show and array of metrics including: your split times to your distance and have over 16 hours of swim time in their battery life.

So what does that mean for you the swimmer?

1. It's like having a fitness coach that swims with you.
2. The optical display showing time, distance and pace.
3. Provides real time metrics.
4. You can measure, track and customize your workouts through the app.

4. VFX: THE VARIABLE FLOW EXPERIENCE It's All About Control

This revolutionary VFX Control and Pump System is the most advanced swim spa system in the world.

a. The Most Energy Efficient Pump in the industry

Saving up to 40% compared to any competition the Hydropool VFX pumps deliver huge energy savings from one season to the next.

b. Built with treadmill technology

The VFX system allows the user to pre-program up to four users with the topside control. The control also has four ready set programs for any user to take advantage of at the touch of a button.

c. Precise swim current

The elimination of any water diversion creates a "Dead Centre" current. The combination of this and our current collector creates the most predicable swim current in the industry.

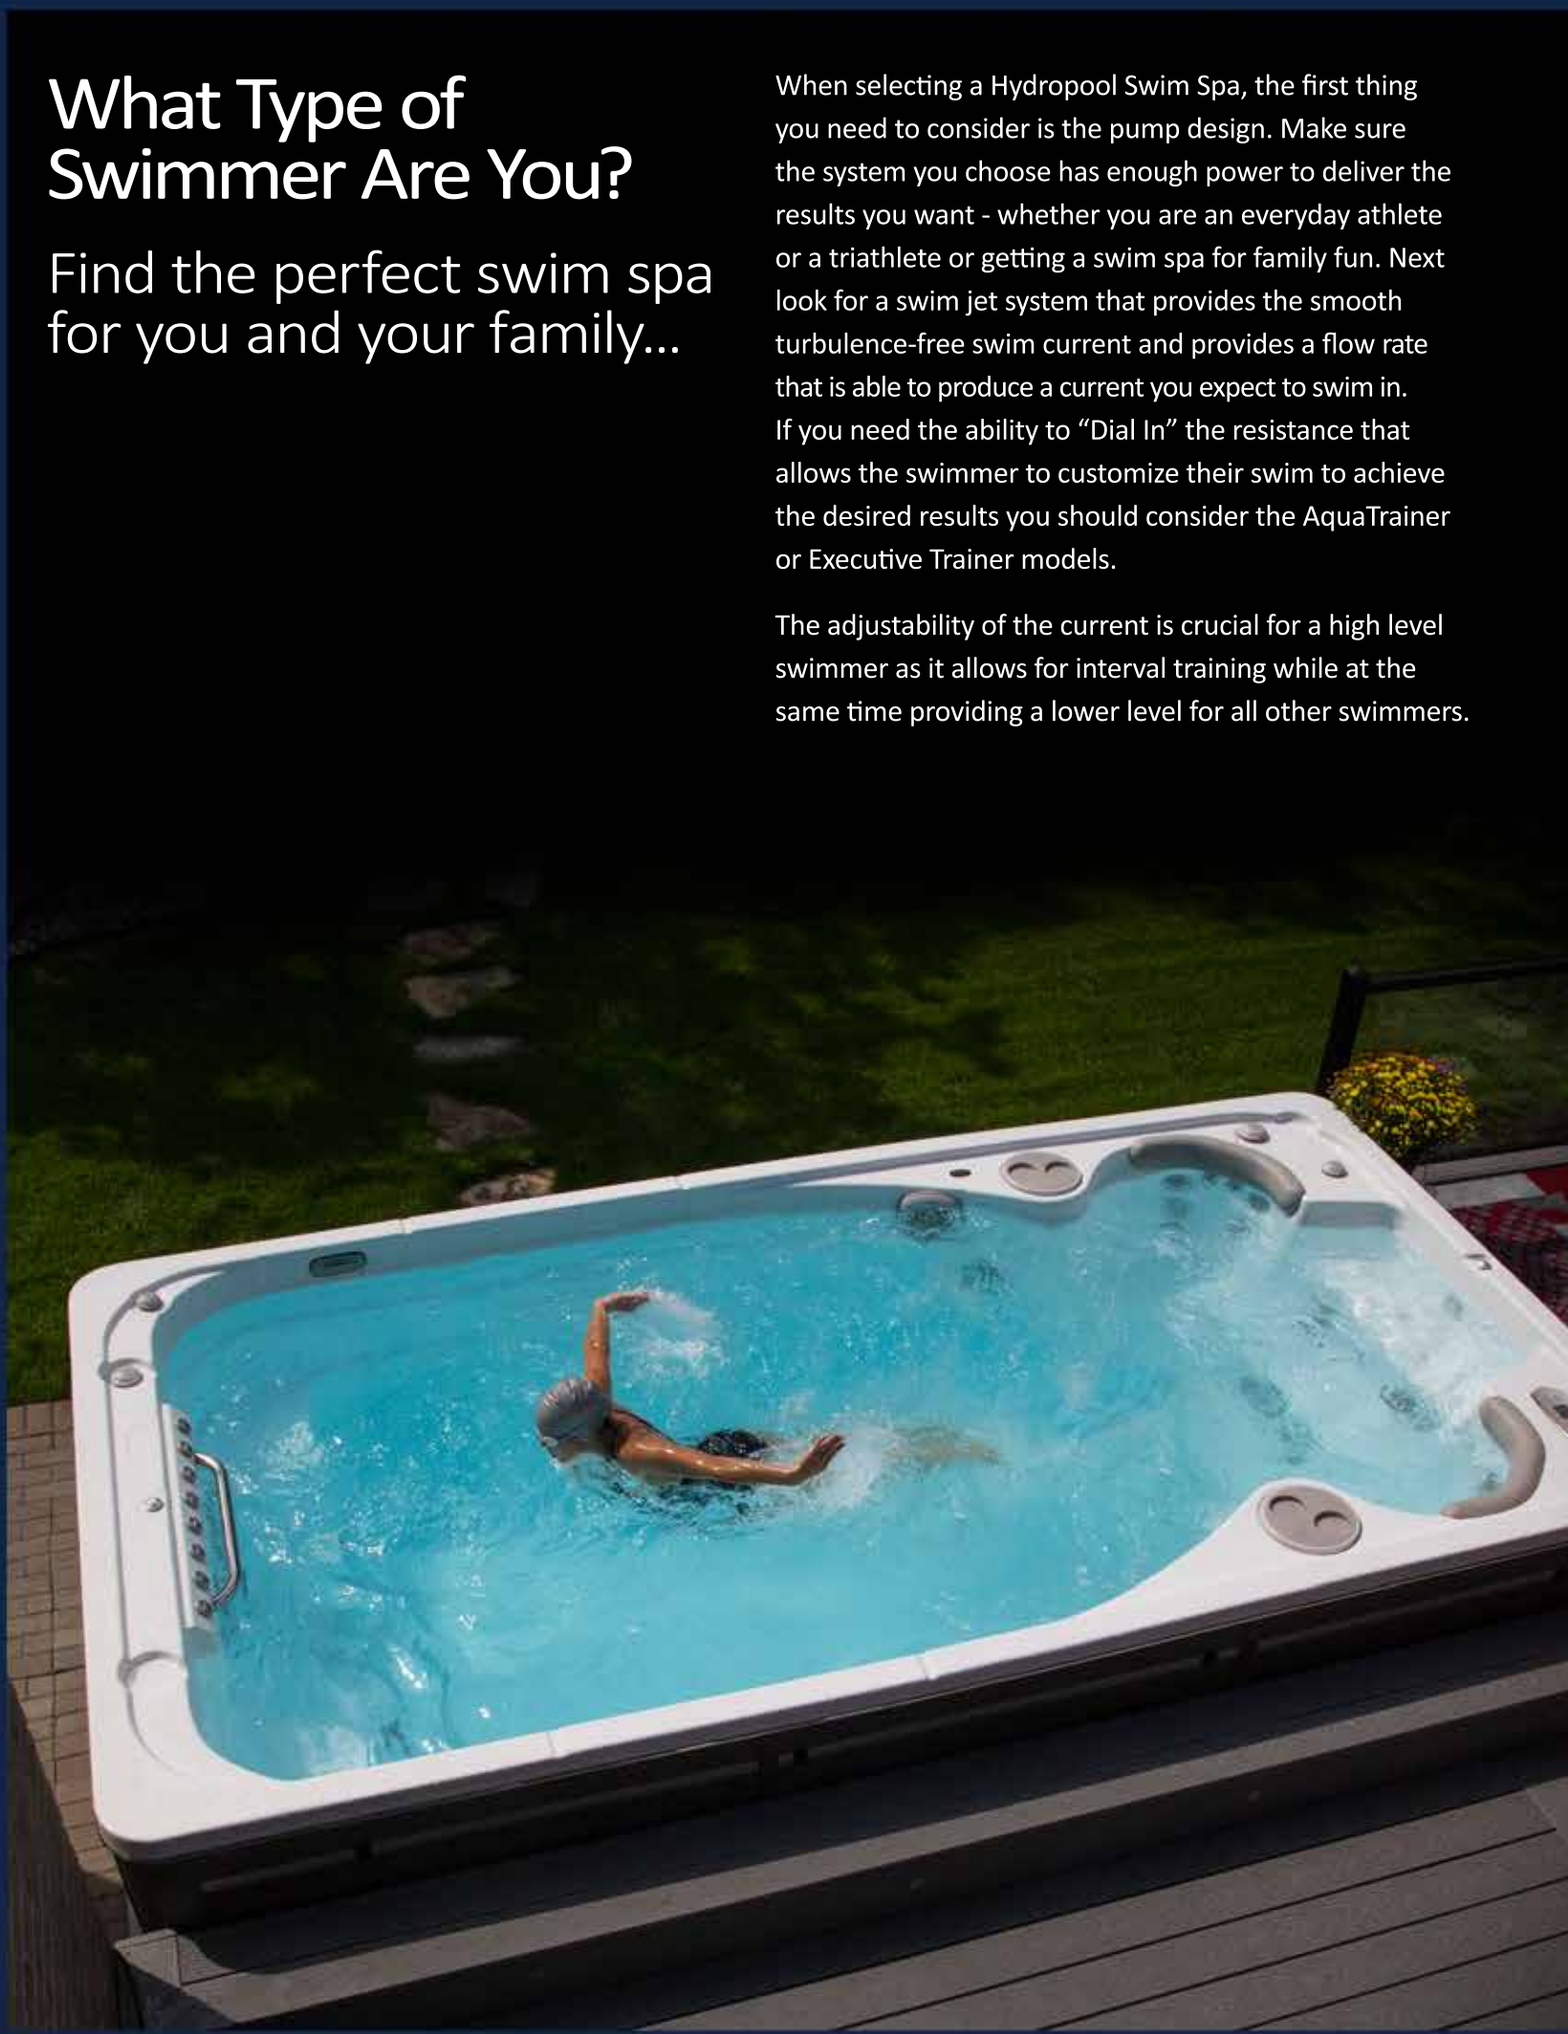

What Type of Swimmer Are You?

Find the perfect swim spa for you and your family...

When selecting a Hydropool Swim Spa, the first thing you need to consider is the pump design. Make sure the system you choose has enough power to deliver the results you want - whether you are an everyday athlete or a triathlete or getting a swim spa for family fun. Next look for a swim jet system that provides the smooth turbulence-free swim current and provides a flow rate that is able to produce a current you expect to swim in. If you need the ability to “Dial In” the resistance that allows the swimmer to customize their swim to achieve the desired results you should consider the AquaTrainer or Executive Trainer models.

The adjustability of the current is crucial for a high level swimmer as it allows for interval training while at the same time providing a lower level for all other swimmers.

MAKE
AN EXECUTIVE
DECISION.
INVEST IN THE
PERFECT SWIM.

HYDROPOOL EXCLUSIVE...

Harness the power of water with the... Executive Trainer Swim System.

The streamlined unobstructed shell design is tapered to channel the flow of water towards the patented Current Collector at the opposite end of the spa.
The fully programmable VFX Control has four user programs and four preset programs, giving the user the ability to dial in the perfect swim. The patented V-Twin jets delivers the smoothest and most predictable swim current in the industry.

Hydropool Swim Spas collaborated with swimmers James Guy and Ben Proud from Great Britain, enabling them to train for Tokyo 2021 in their new Hydropool Executive Trainer Swim Spas.

1) Pump Design EXCLUSIVE VARIABLE FLOW EXPERIENCE PUMPS

This swim spa has two 5hp VFX Pumps and one 4 hp Buoyancy Pump all located under the Executive Trainer's swim jets. Producing the strongest, most predicable swim current in the industry.

2) Patented Swim Jet Technology PATENTED V-TWIN SWIM JETS

Provide the widest, smoothest and most predictable swim current in the swim spa industry. The unique V-Twin technolgy supercharges the swim current and generates over 1,400 gallons per minute, the highest volume of water in the industry.

3) Fully Programmable TAKE CONTROL OF YOUR SWIM WITH THE VFX SWIM CONTROL

Has the ability to simultaneously adjust the speed of both V-Twin Jets from 0 – 11 kph (0 – 6.84 mph)) and can be adjusted for anyone from a novice level to a triathlete. It's the first swim spa with built-in treadmill technology that can track your speed, distance, time training and calories burned.

4) Streamlined Shell Design EUROPEAN DESIGN

The shell has little to no obstructions allowing water to flow towards the current collector unobstructed and is tapered to force water towards the current collector at the back of the swim spa.

5) Turbulence-Free PATENTED CURRENT COLLECTOR TECHNOLOGY

All of the water that is produced from the V-Twin jets and buoyancy jet is pushed towards the patented Current Collector. This eliminates the possibility of any reflective wave occurring and eliminates turbulence created by any diversion of the water. Functioning like a conveyor belt, the "Throw and Catch" further eliminates turbulence.

6) FORM® Swim Goggles THE SWIM COACH THAT SWIMS WITH YOU!

It's like having your Fitness Coach swim with you. FORM Smart Swim Goggles with their optical display shows you your time, distance and pace in real time metrics. Thus allowing you to measure, track and customize your workouts on the app.

16EX EXECUTIVE TRAINER
SWIM SPA

You get more room for total body fitness with our 16EX Trainer. With fully jetted seats and a wider exercise area, this model stands as the best swim spa on the market. The Patented Current Collector and V-Twin Jets optimize the flow of water, so that you swim in much less turbulent water than competing swim spas. The 16EX Trainer features the signature smoothest, most predictable current in the industry providing the best swim of any swim spa on the market. Plus, you can still unwind with HydroMassage jets, ergonomically positioned.

LIVE
YOUR LIFE
AQUATIC.
YOUR PERFECT
BACKYARD
AQUATIC CENTRE.

HYDROPOOL EXCLUSIVE...

The Aquatic AquaTrainer Swim System.

The perfect backyard aquatic center.

The Aquatic AquaTrainer Swim Spa is the perfect way to swim every day. Imagine never having to turn, touch or push off from any wall. Our swim current gives you the ability to focus on your stroke technique and enjoy the fluidity of the swim current adjusted to your personal swim level. The Aquatic Series also provides great seating flexibility and options to further enjoy this swim spa with family and friends.

1) Pump Design* PRODUCES A STRONG CURRENT

This swim spa has two 5hp AquaBoost Pumps and one 4 hp Buoyancy Pump all located under the Aquatic Trainer's swim jets.

2) Hydraulics PRODUCES A SMOOTHER CURRENT

The 2.5 inch intake and returns produce more volume of water. Combined with the use of unique sweep 90° elbows produce a higher volume water.

3) V-Twin Jets TECHNOLOGY THAT PRODUCES A TURBULENCE-FREE SWIM

The patented V-Twin jet technology supercharges the swim current, producing over 1,400 gallons per minute. The highest volume in the industry and produces a wider, deeper and smoother current more than any other swim system on the market. These swim jets are also backlit to light the swim current.

4) Programmable AQUAPRO/AX CONTROL

Provides two Users Programs and two Preset Programs; Hill Climb & Interval Program. The swim current ranges from Zero to 10 kph (0 - 6.2 mph) with ten speed levels. The control also tracks your Calories, Time, Distance, Speed and provides visual motivation for the swimmer. The control is adjustable to the level of any swimmer from the novice to the triathlete.

LOCATION: Sudbury, Canada **RETAILER:** Aquacade Pools & Spas

5) AquaChannel Shell with PERFORMANCE FLOW INTAKES

The shell hips are designed to create an eddy in the seating area. Then the Performance Flow Intakes eliminate any reflective wave to help keep the swimmer in swim lane. The Aquatic Swim Spa Shell design has one of the largest unobstructed swim tank in the industry. The shell also includes Hip Jets that stablize the swimmer in the swim lane.

6) FORM® Swim Goggles THE SWIM COACH THAT SWIMS WITH YOU!

It's like having your Fitness Coach swim with you. FORM® Swim Goggles with their optical display shows you your time, distance and pace in real time metrics. Thus allowing you to measure, track and customize your workouts on the app.

HYDROPOOL EXCLUSIVE...

The Aquatic AquaSport Swim System.

This is the ideal universal aquatic gym.

This swim spa has a generous streamlined swim tank area and a flat ergonomically designed anti-slip floor that allows for a variety of fitness exercises. Plus you, can create the perfect training environment through personalized water temperature settings. The intensity of your workout is controlled by the speed of your movements and the velocity of the current.

Additionally, the swim spa is a safe and easy environment in which you can teach kids how to swim.

1) Pump Design* PRODUCES A STRONG CURRENT

This swim spa has one 5hp AquaBoost Pump producing up to 360 Gallons per minute and one 4 hp Buoyancy Pump all located under the AquaSport's swim jets.

2) Efficient Design HYDRAULICS: ENERGY EFFICIENT

The suctions located on the steps eliminate turbulence and the 2.5 inch intake and return pipes move more volume of water. These Evergreen pumps use 30% less amperage than any traditional pump.

3) AccuFlow Swim Jets SLIPSTREAM SWIM JET TECHNOLOGY GREAT FOR EXERCISE!

The two AccuFlo Jets produce the swim current, their oval design flattens the water flow for a smoother swim.

4) JetFlex Swim System CUSTOMIZABLE CURRENT

The system produces 5 kph (3.5 mph) swim current and is fully adjustable by the user by varying the flow of water.

5) AquaChannel Shell COMPLETE LOOP SHELL DESIGN

The shell hips are designed to create an eddy in the seating area that produces no reflective wave and keeps swimmer in swim lane.

6) FORM® Swim Goggles THE SWIM COACH THAT SWIMS WITH YOU!

It's like having your Fitness Coach swim with you. FORM® Swim Goggles with their optical display shows you your time, distance and pace in real time metrics. Thus allowing you to measure, track and customize your workouts on the app.

• The power levels indicated of the pumps are for North America.

14AX AQUASPORT
SWIM SPA

The 14AX AquaSport features new ergonomic design and swim tank design along with numerous engineering innovations that include four Hydrotherapy Seats, each with Zone Therapy. The swim has gone to newdepth with a 53 inch deep swim tank and has two AccuFlo jets thatdeliver a smooth swim and one AquaStream jet, all backed up by our new Dual Performance Flow Intakes that dramatically reduce the reflective wave effect. The swim tank features new soft stride mats on the floor. All encompassed by our new acrylic lip edge design.

Raising the Standards in Comfort, Design & Massage.

Hydropool is one of the largest swim spa manufacturers in the world and is committed to building superior swim spas utilizing the latest technologies, with the newest environmental practices.
Our research and development team is constantly striving to be on the leading edge of innovation and design.

STEP INTO YOUR COMFORT ZONE.

1. Recessed Jetting

Science Of Immersion In An Aquatic Collection Swim Spa.

Through our understanding of Zone Hydrotherapy and ergonomics of the human body, Hydropool has taken the science of immersion to the next level. This constant innovation has created a line of swim spas that allows them to interact with the human body in the most natural and effective way possible with the introduction of Zone Therapy. Hydropool Zone Therapy is designed around you and your usage of the hot tub to help you benefit from a general sense of well-being. We are all unique individuals genetically and with varying lifestyles that all play a role in defining our sensitivity to a release of various tensions.

ZONE THERAPY:

ZONE 1: CORE ZONE
Activation of the paravertebral muscles

Vertebral fatigue contributes to headaches. This zone releases tension in the dorsal muscles.

ZONE 2: OVERALL BACK ZONE
Activation of back, leg and lumbar muscles

Promotes improved circulation in the lower part of the body and allows for venous return and to lower venous and capillary pressures in the feet and lower limbs.

ZONE 3: UPPER BACK ZONE
Activation of upper back, neck and shoulder muscles

Eliminates tension in trapezoid muscles and neck by releasing tensions in solar plexus area.

ZONE 4: REFLEXOLOGY
Activation of foot arch muscles

Deeply massages the small venous areas in your foot arch offering relief as your feet take the brunt of most sports.

Each zone has four features, designed to maximize your hydrotherapy:

1. TYPE OF JETS

The type of jet is crucial to a proper massage.Our E-55 jet is designed purposely for a deep tissue massage and our E-40 Jet is designed for a gentle massage.

2. JET PLACEMENT

Our hydrotherapy jets are specifically designed for each zone so that the superior benefits of hydrotherapy are achieved. Our different jet patterns are designed to work different muscle groups.

3. SEATING DESIGNED AROUND YOU

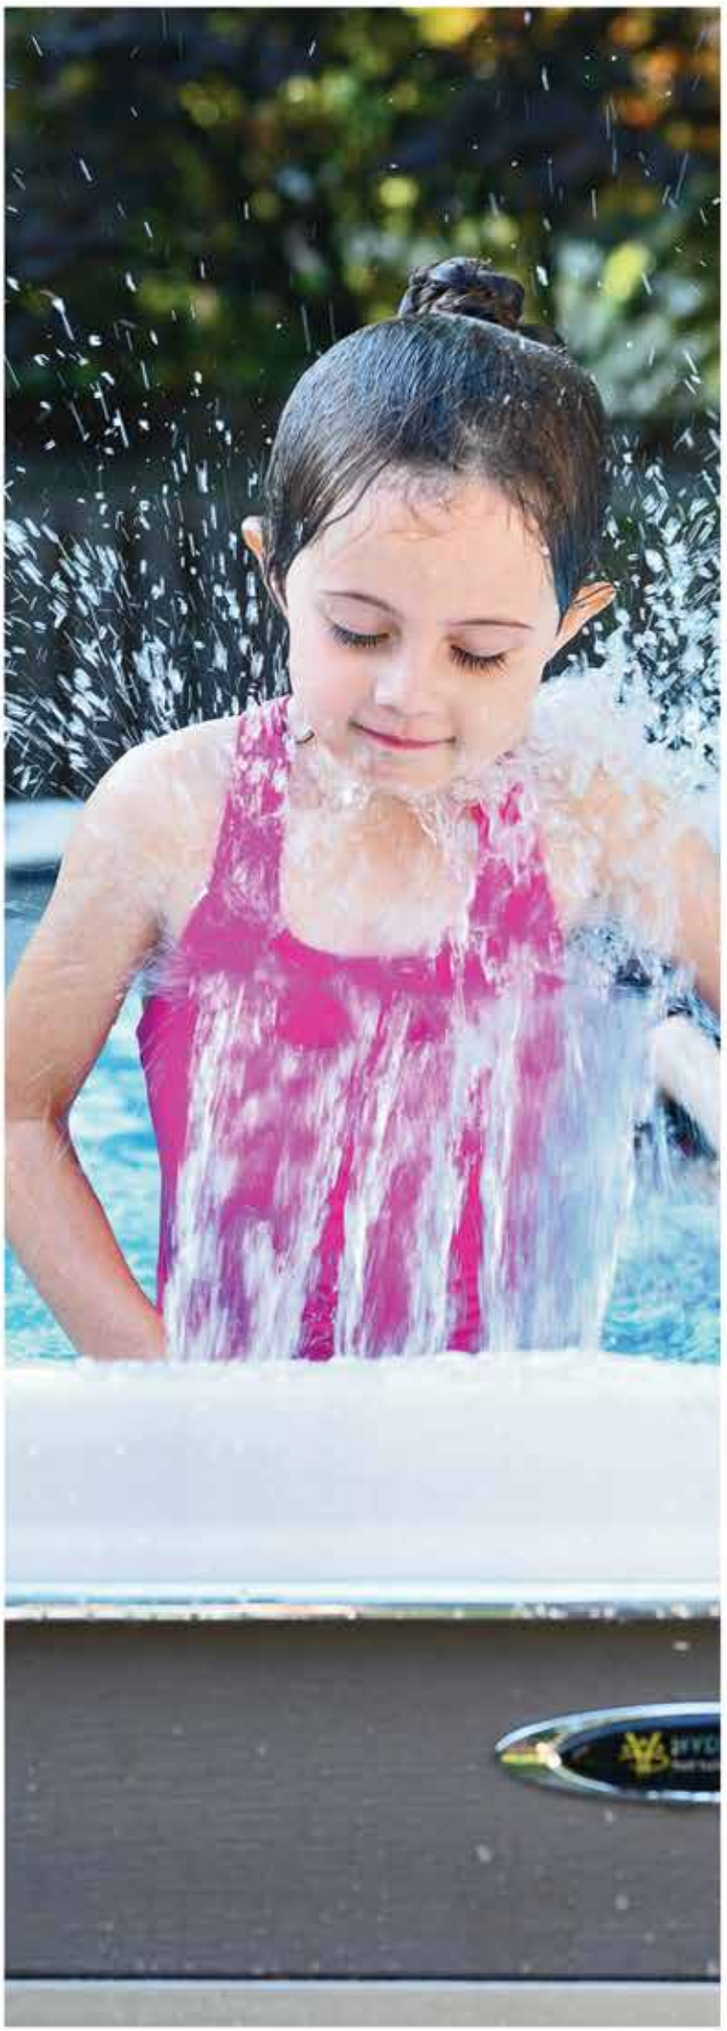

Designed to work with your body's natural structure and functions to provide maximum comfort and functionality. Our ergonomic seats support the skeletal structure so that the muscular system does not have to; it removes stress from muscles and joints so that the body relaxes.

4. DURATION IN SEAT

The last component of Zone Therapy is the duration of time that a person spends in each seat (Zone) of the swim spa. The duration in seat combined with the sequence of seats is critical to the performance of the Zone Therapy.

HYDROPOOL EXCLUSIVE FEATURE

Our Exclusive Self-Cleaning Technology

We know that one of the big challenges for our customers is the time they need to invest in maintenance. Now, with our PATENTED Self-cleaning technology, Hydropool has created the world's easiest swim spa to maintain. The patented Self-Cleaning System cleans 100% of the water every 40 minutes, that's an incredible 3 times in 2 hours!

Let's be clear, this is not a simple vacuum for your swim spa, it's innovation throughout the entire system.

Did You Know...

With the Quick Drain System there is:

No Shop-Vac or Sump pump needed, it pumps the swim spa water out at any distance or any grade. This system saves time and the hassle associated with swim spa maintenance.

The Hydropool PureWater System:

This is the most efficient water purification system in the world. Eliminates 99% of all contaminants by combining the Self-Cleaning technology with UV and Ozone Water treatments.

THE SELF-CLEANING SYSTEM COMPRISES OF...

1. Filtration Jets OPTIMIZED SURFACE FILTRATION

The design of our seating and the strategically placed jets create a continuous flow of water pushing all floating debris towards the high flow skimmer. This design feature boosts the efficiency of our Self-Cleaning System.

2. High Flow Skimmer & Pre-Filter CLEANS ACROSS THE SURFACE

Removes floating debris, oils and prevents larger debris from clogging the pump and heater. This increases filtration and moves debris into the Pre-Filter and extends micro-filter cleaning cycles.

3. HydroClean Floor Vacuum CLEANS ACROSS THE FLOOR

This system circulates Watercare products more eficiently and removes the heavy contamination (such as dirt and grit). The filtration jet located on the bottom step gradually moves any non-floating floor debris towards the HydroClean Floor Vacuum where it is removed.

4. Pressurized Micro-Filtration CLEANS 100% OF THE WATER EVERY 40 MINUTES.

HydroClean Filter was built to make cleaning easy resulting in extended cleaning cycles and easy to access while out of contact and sight of bathers. Plus, no odor escapes during swim spa use. The introduction of optional Ozone dramatically reduces sanitizer usage.

5. Self-Clean Mode Indicator ALWAYS ON THE JOB:

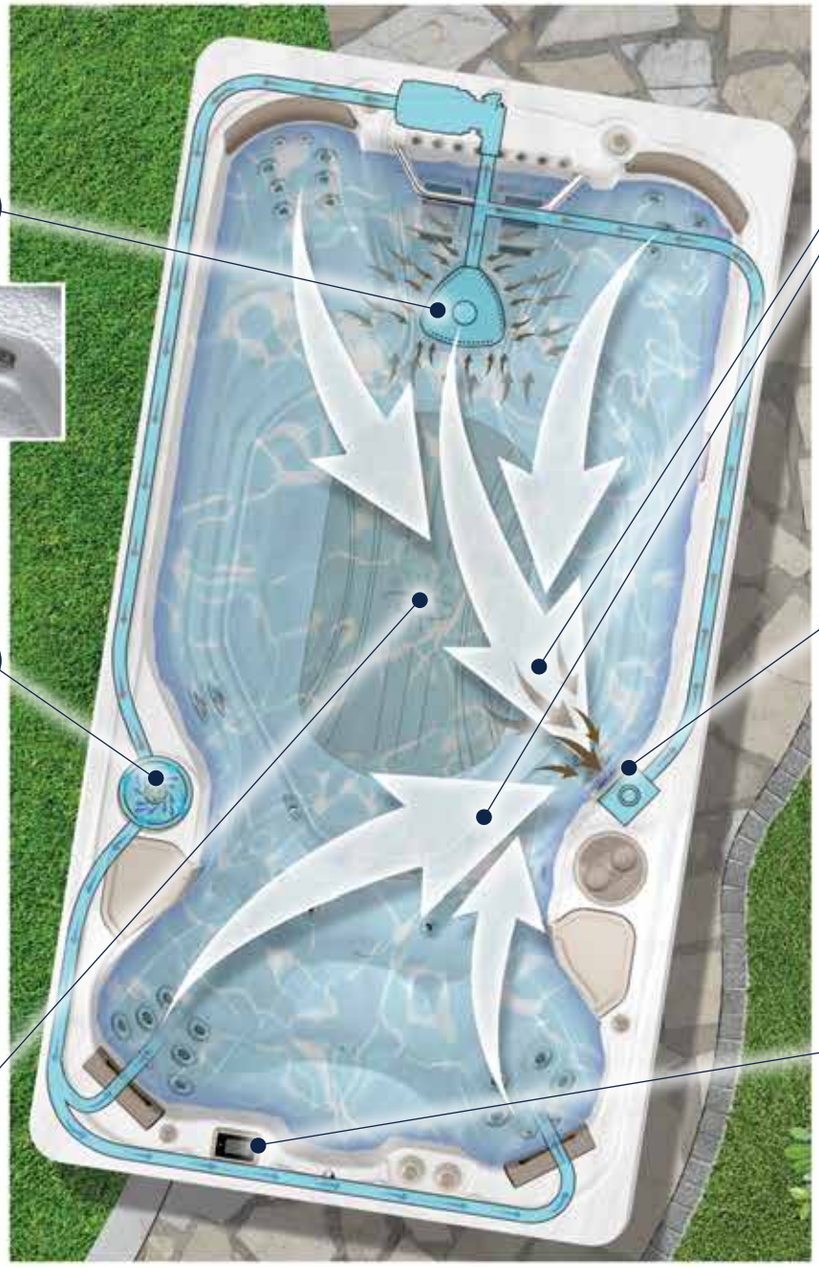

Our worry-Free Indicator indicates the Self-Clean and EcoHeat Exchange system are both active, reassuring your family's safety and protection.

6. Customize your Watercare System WORRY-FREE & CONVENIENT:

• Hydropool PureWater System • PurEssence WaterCare System
• EZWatercare System • Automatic Chemical Feeder

HYDROPOOL EXCLUSIVE FEATURE

LOCATION: Budapest, Hungary **RETAILER:** Hydropool Hungary

Energy Efficiency beyond compare

One of the most frequent questions we're asked is around the cost to keep your swim spa at the ideal temperature of 86˚F (30˚C).
Well, thanks to our innovative HydroWise Thermal Shield Energy Efficient Insulation along with our superior 4 x 3 inch HydroWise Hard Cover we've mastered the art of keeping the heat in and the cold out. Combine this with the fact that our swim spas are engineered to be the most energy efficient in the world, that means you can enjoy your swim spa for just pennies a day.

So how do we do it?
ENERGY EFFICIENT FILTRATION

Your Hydropool swim spa filters 100% of the water in only 40 minutes. This means the swim spa does not have to be operating as long to filter the same amount of water as other swim spas. It's the most energy efficient filtration system in the world.

Our Low Amperage Evergreen Pump is designed as a high flow low energy pump engineered to produce high flow rates with low energy output. Which means our Hydropool filtration pump is 26% more efficient than the competition.

HYDROWISE HEAT SHIELD HARDCOVER

Made for Canadian Winters and inspired by NASA technology. The Heavy Duty tapered locking safety hardcover has insulated baffle in the fold area that locks the heat in and the cold out.

INSULATED FOR ALL WEATHER

The Thermal Shield Blanket* is a N.A.S.A. inspired technology with components such as insulated floor, insulated acrylic shell and plumbing. The reflective foil side of this Thermal Shield reflects the heat back into the swim spa.

ECOHEAT EXCHANGE TECHNOLOGY

Fully adjustable venting. Each pump creates 1.5 kw of waste heat and our Double Thermal Shield blanket reflects that heat back into our hot tub cavity. The HydroWise Thermal vents maximize energy efficiency for any season and any climate.

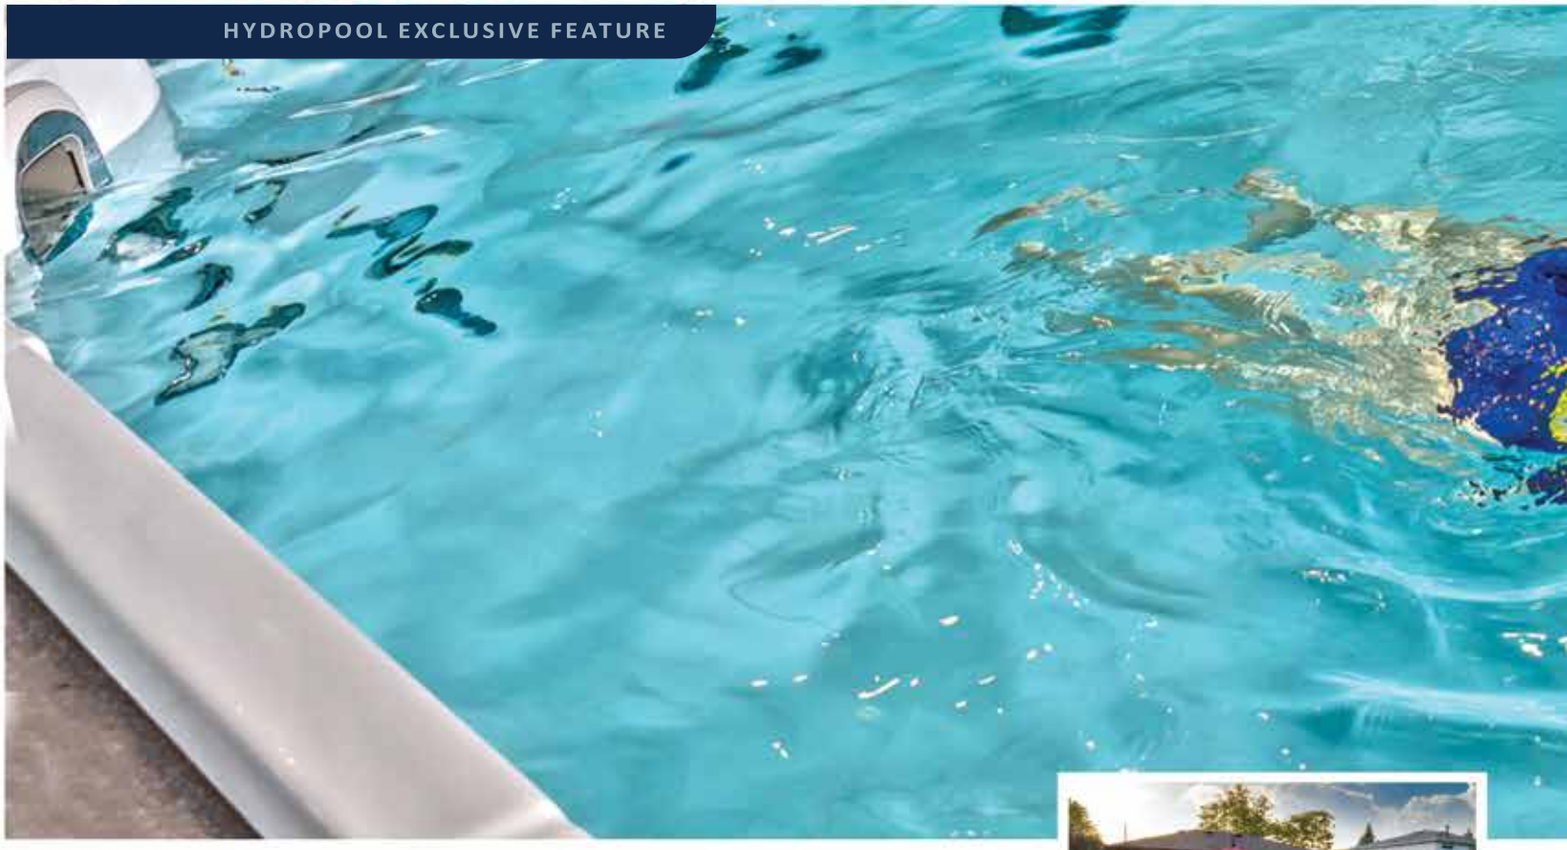

All of the technology has been designed to exceed California regulations which are some of the stiffest regulations in the world. We are literally setting the standard, we are ranked in the top three in the world for stand by wattage and energy efficiency and one of the first to be approved under the strict State of California Guidelines.

* This feature is offered as an optional upgrade on the 12FFP Swim Spa.

Hydropool's Aquatic Cross Training Programs

Hydropool's Aquatic Cross Training Sessions are a great way to bring the traditional gym workout into the backyard with the added benefits of water.
These are low impact aquatic exercises that will deliver a big difference in your overall fitness. Exercises using water pressure in a swim spa puts less strain on your heart by moving blood around your entire body.

1. Home Gym
WORK OUT IN THE CONVENIENCE OF YOUR OWN HOME

You choose when to workout in your swim spa and its easy to use – No complicated machinery. You workout in the privacy of your own yard or home.

2. Low Impact Exercise
HIGH INTENSITY TRAINING - EASY ON YOUR BODY

Aquatic exercise strengthens your muscles and improves your cardio fitness. Aquatic exercise does not subject your body to the wear and tear of high impact land-based exercise.

3. Know Your Fitness Options:
FITNESS PROGRAMS TO FIT YOUR LIFE

- Cross Training Program
- Box Fit Program
- Row Fit
- Aqua Fitness Package

4. Personal Training Guide & Videos are Included ...
ITS LIKE HAVING A PERSONAL TRAINER AT HOME 24/7

From beginner to advanced, five ready made programs for you to try. All supported by videos and a training guide that are included with every swim spa. Your options are endless.

5. Easy To Use
BUILT IN TREADMILL TECHNOLOGY

● Interval Program ● Hill Climb Program ● Workout against the current.

6. FORM® Swim Goggles
THE SWIM COACH THAT SWIMS WITH YOU!

It's like having your Fitness Coach swim with you. FORM® Swim Goggles with their optical display shows you your time, distance and pace in real time metrics. Thus allowing you to measure, track and customize your workouts on the app.

Get Into The Perfect Shape with Hydropool's Aquatic Cross Training Manual.

Your Hydropool Swim Spa Exclusive comprehensive Training Guide to get the most out of your Swim Spa and yourself. The Perfect Guide to better well being.

7. NEW FOR 2021!
Hydropool introduces Prenatal Aquatic Exercise Program

We have now added this great new exercise program; as Aquatic exercise in a swim spa during pregnancy is a great low impact way workout that helps to maintain flexibility, strengthen muscles, joints, bones and increases stamina with minimal risk of injury. In fact, the buoyancy of water places less stress on joints when compared to exercising on land. Buoyancy also provides relief from the extra weight that the pregnant woman is carrying and supports their weight in water, therefore providing less discomfort and reduces lower backache related to the pregnancy.

LOCATION: Toronto, Canada **RETAILER:** Bona Vista

Executive and Aquatic Swim Spa Collections Options & Upgrades

1. SHELL OPTIONS
Standard Acrylic Colors*

Your Executive and Aquatic Self-Cleaning Swim Spas cabinet are available in these three colors.

2. CABINET OPTION
Everlast Cabinetry with Removable Panels

Hydropool Swim Spas come with our maintenance-free Everlast. This premium quality cabinetry is installed onto a sturdy galvanized steel substructure for the ultimate in durability. In the unlikely event that you require access to the swim spa plumbing or equipment, all panels are removable for easy access.

COVER OPTIONS
3a. Insulated Hard Cover

This hard cover option is made from durable marine grade vinyl, when installed in the closed position it completely seals in the top of the swim spa for improved energy efficiency. Cover Locks for securing the cover and keeps curious children and pets out for improved safety and security.

3b. Rollaway Spa Cover

This next generation one-piece spa cover creates a complete seal on top of the swim spa; locking in the heat, lowering energy consumption and cost. The Rollaway Spa Cover design enables one person to roll the cover off the swim spa in less than 60 seconds, providing immediate access to the swim spa.

3c. Floating Cover with Tie Downs

Keeping your swim spa warm and ready for spontaneous usage while conserving energy and staying secure to prevent unwanted debris from entering your swim spa.

AQUAFITNESS OPTIONS
4. FORM® Smart Swim Goggles

The only swim goggles with a smart display that delivers metrics like split times, distance, and more intelligently, as you swim. The see-through display can be worn over left or right eye. FORM® Swim Goggles have a battery life of 16 hours swim time. These Goggles are the missing piece in every swim spa swimmer's swim bag. FORM® Swim Goggles are the swim coach that swims with you and after your swim the app measures, tracks and you can customize your workouts with.

5. Aqua-Rowing Kit

Is a combination of stainless steel oars and resistance bands that attach to swivel anchors allowing you to do the full rowing motion. This is an excellent upper body and abdominal workout.

6. Fitness Package

The addition of this package turns any swim spa into a Aquatic Universal Gym. The resistance bands add another dimension to your workout and can be used anywhere in your swim spa within the exercise or swim tank area. These bands create a full range of motion helping promote muscular development.

*Swim Spa shell and cabinet colors may not be exactly as shown due to printing.

Options and Upgrades continued...

7. BoxFit Package

Our latest fitness package exclusive to Hydropool uses the principles of traditional boxing & kick boxing. Includes Aqua Logix Training Bells and High Speed Fins. Using brand new sport performance equipment from Hydro Evolution, this workout aims to increase total body strength, and improve cardiovascular fitness.

8. 48” Wall Mounted Exercise Bar

These can be mounted within the interior of the swim spa and is intended to act as a stabilizing bar for stretching and various other activities. Alternately, the wall mounted 48” exercise bar can be installed on a nearby wall for safety purposes as well.

AROMATHERAPY OPTIONS

9. Dream Scents on Demand

As part of your total sensory swim spa experience, our state-of-the-art technology provides you the chance to change the mood and / or enhance your swim spa experience at the push of a button. It injects just the right amount of aromatherapy essential oils into your Swim Spa. The essential oils are available in a wide variety of pleasing and stimulating scents.

HYDROTHERAPY OPTIONS

10. Hydro-Flex Air Therapy

Every Variable Speed Air Therapy System is designed to offer you a privileged moment where up to 10,000 perfectly aimed air bubbles apply ideal pressure to provide you with an encompassing therapeutic massage.

LIGHTING OPTIONS

11. Northern Lights

This upgrade to LED lights offers strategically placed lighting that illuminates all of the top mounted control valves. They are brilliantly colored and sequence through a range of colors or can be locked on to one color. These lights are also complemented by LED lights that illuminate the waterfall jet(s) discreetly from behind.

12. Southern Lights Cabinet Corner Lighting Feature

Take the ambiance of your swim spa to the next level with this lighting option. The addition of this corner lighting to your swim spa illuminates the surroundings and detail of the spa’s exterior. Making your swim spa the focal point of any backyard. The LED lights can be locked on one of three available colors; blue, green or red.

STEP OPTIONS

13. Five Tier Universal Step

Hydropool’s optional five tier Universal step makes entering and exiting your swim spa safe & easy. These steps only come in a black finish.

OTHER POPULAR OPTIONS

14. EZ Ultra Pure Ozone System

When mixed with water, ozone is a highly effective oxidizer that assists in removing unwanted contaminants from spa water.

15. 50 Or 60 amp GFCI with Sub-Panel Box

For your convenience a GFCI breaker can be conveniently installed into the included custom sub panel.

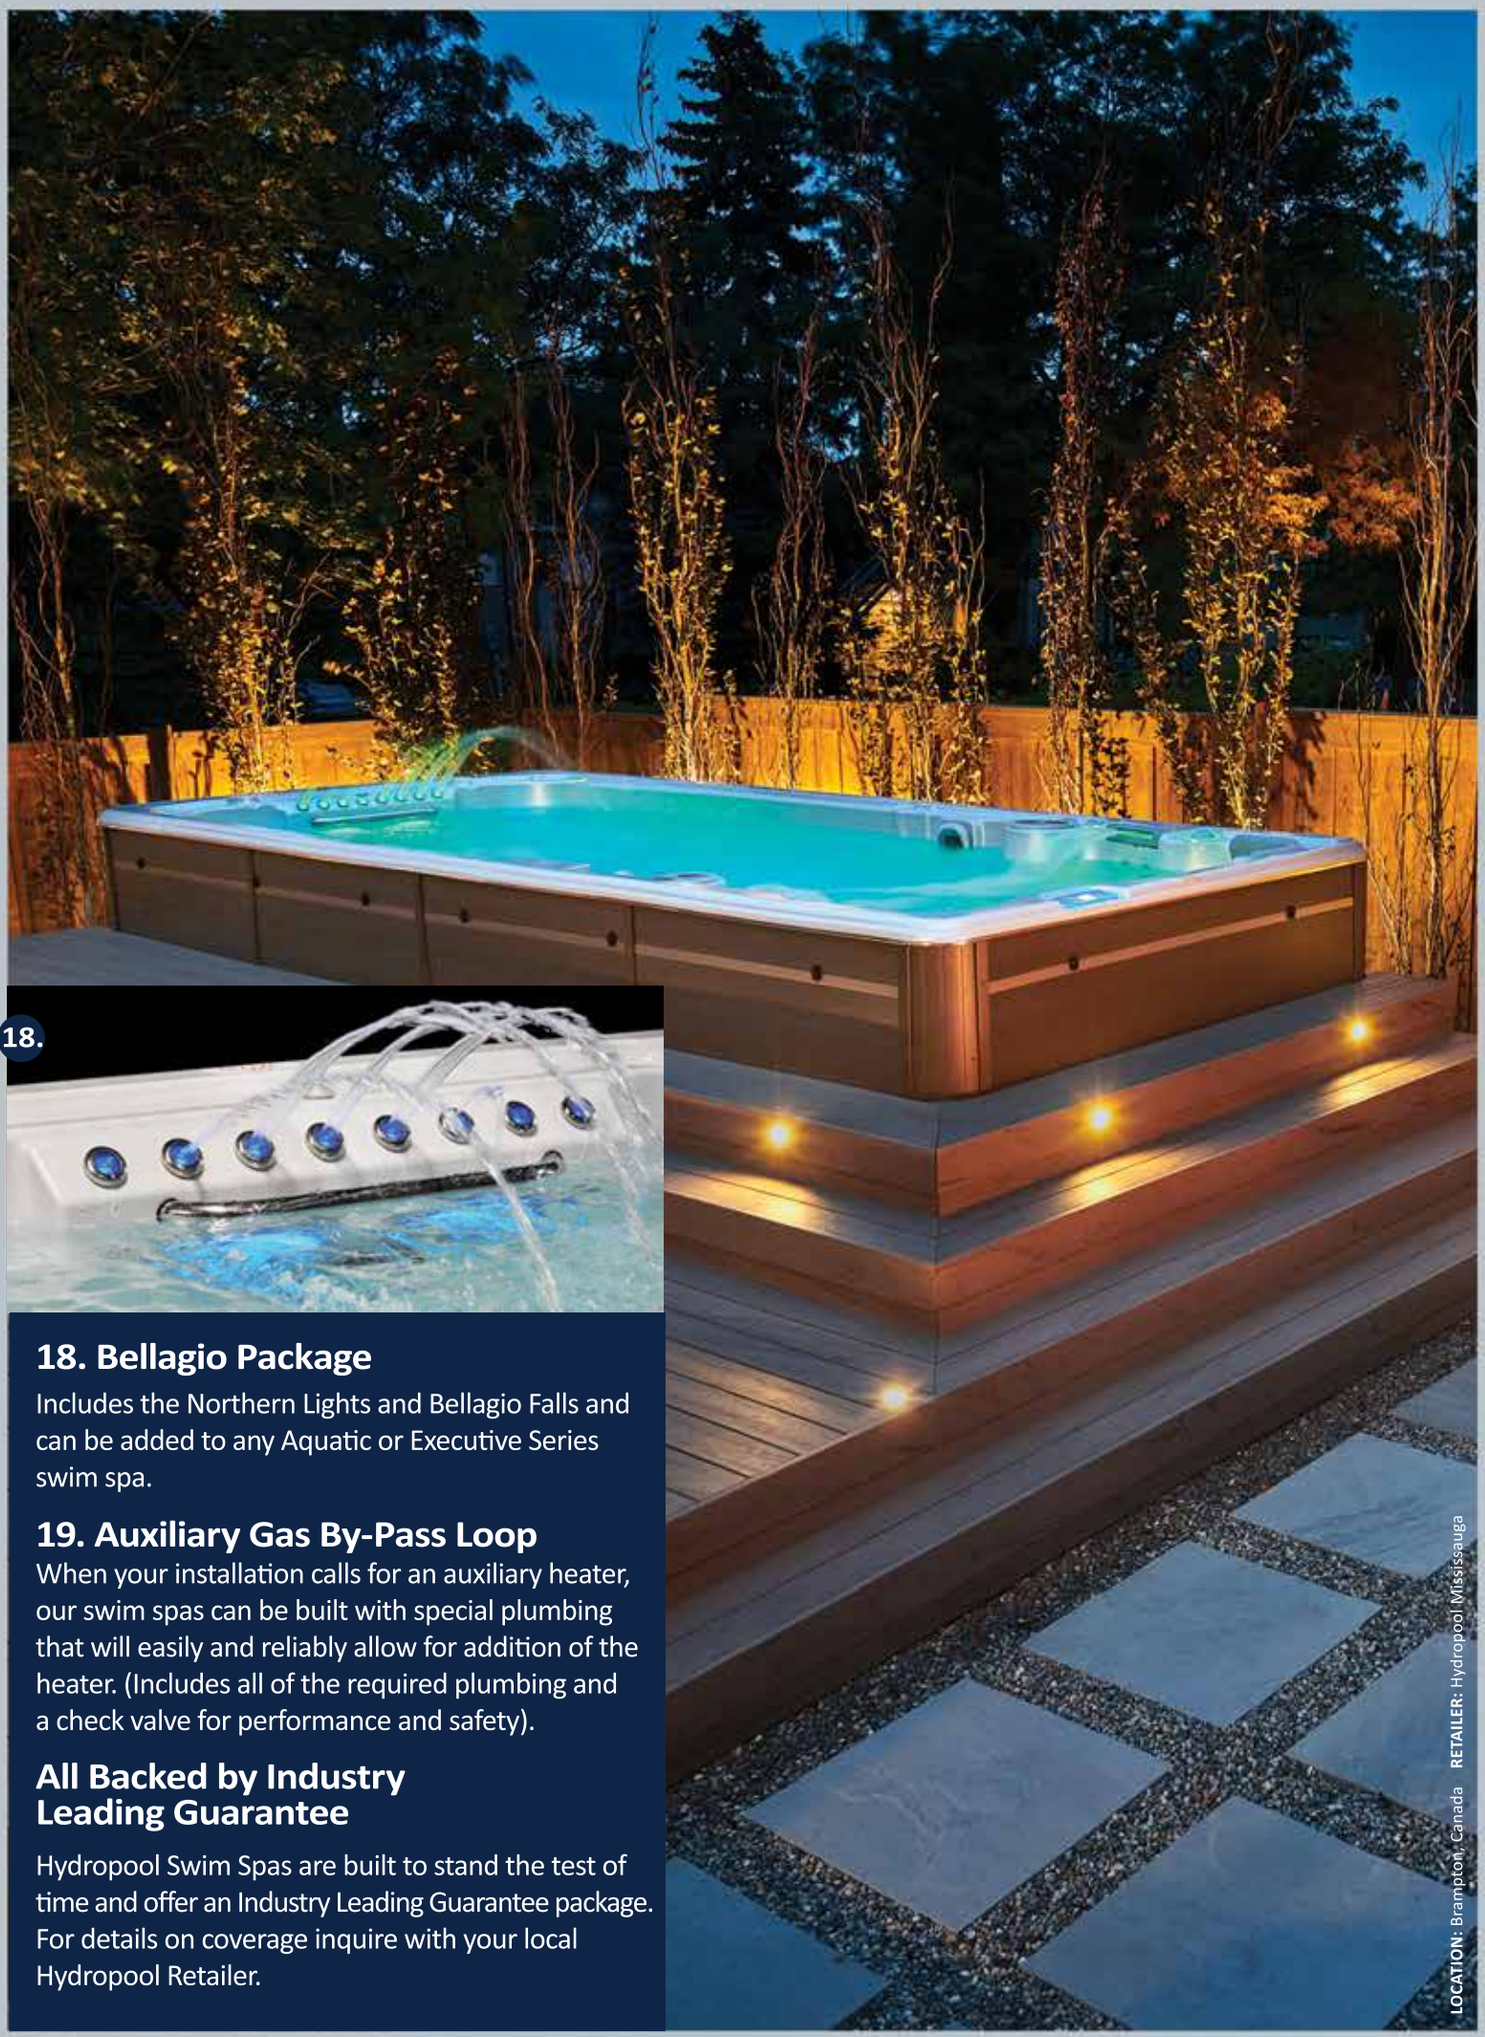

16. iCommand App WORLD EDITION**

The Smart Phone App that is designed as a wireless swim spa control which allows you to pick the water care settings that fits your schedule, adjust filtration, temperature settings and create the ideal swim spa experience from any where in the world.

** May not be exactly as shown and Smart Phone not included.

17. Auxiliary Electric Heater

Optional for the Aquasport or Executive Sport swim spa, the Auxillary Electric heater will help to maintain the temperature of your swim spa during the coldest months.

18.

18. Bellagio Package

Includes the Northern Lights and Bellagio Falls and can be added to any Aquatic or Executive Series swim spa.

19. Auxiliary Gas By-Pass Loop

When your installation calls for an auxiliary heater, our swim spas can be built with special plumbing that will easily and reliably allow for addition of the heater. (Includes all of the required plumbing and a check valve for performance and safety).

All Backed by Industry Leading Guarantee

Hydropool Swim Spas are built to stand the test of time and offer an Industry Leading Guarantee package. For details on coverage inquire with your local Hydropool Retailer.

AquaPlay Swim Spa Collection Standard Features and Options.

1. SHELL OPTIONS
Standard Acrylic Colors*

Your AquaPlay Swim Spa is available in Silver Marble only.

2. CABINET OPTION
Dura Cabinetry with Removable Panels

Your AquaPlay Swim Spa comes with our maintenance-free grey Dura finish. This premium quality cabinetry is embossed with a realistic wood finish.

COVER OPTIONS
3a. Insulated Hard Cover

This hard cover option is made from durable marine grade vinyl, when installed in the closed position it completely seals the top of the swim spa for improved energy efficiency. The Cover Locks down for safety and security.

3b. Rollaway Spa Cover

This one-piece spa cover creates a complete seal a top of the swim spa; locking in the heat, lowering energy consumption and cost. The Cover design enables one person to roll the cover off the swim spa in under 60 secs.

3c. Floating Cover with Tie Downs

Keeping your swim spa warm and ready for immediate usage while conserving energy and staying secure to prevent unwanted debris from entering your swim spa.

AQUAFITNESS OPTIONS
4. Aqua-Rowing Kit

Is a combination of stainless steel oars and resistance bands that attach to swivel anchors allowing you to do the full rowing motion.

5. Fitness Package

The addition of this package turns any swim spa into a Aquatic Universal Gym. The resistance bands add another dimension to your workout and can be used anywhere in your swim spa within the exercise or swim tank area.

6. BoxFit Package

This fitness package exclusive to Hydropool uses the basis of traditional boxing & kick boxing.

7. 24" Wall Mounted Exercise Bar

These can be mounted within the interior of the swim spa and is intended to act as a stabilizing bar for safety, stretching and various other exercise activities.

STEP OPTIONS
8. Five Tier Universal Step

This optional five tier Universal step makes entering and exiting your swim spa safe & easy. Available in a Black finish only.

All Backed by Industry Leading Guarantee

Hydropool Swim Spas are built to stand the test of time and offer an Industry Leading Guarantee package. For details on coverage inquire with your local Hydropool Retailer.

** May not be exactly as shown and Smart Phone not included.

OTHER POPULAR OPTIONS

9. EZ Ultra Pure Ozone System

When mixed with water ozone is a highly effective oxidizer that assists in removing unwanted contaminants from spa water.

10. GFCI with Sub-Panel Box

For your convenience a GFCI breaker can be conveniently installed into the included custom sub panel.

11. iCommand App WORLD EDITION**

The Smart Phone App that is designed as a wireless swim spa control which allows you to pick the water care settings that fits your schedule, adjust filtration, temperature settings and create the ideal swim spa experience from any where in the world.

12. Thermal Shield Insulation Upgrade

Add 6-8 inches of insulating foam to further insulate your swim spa for four season use.

13. Auxiliary Electric Heater

Optional for the AquaPlay FFP, the Auxillary Electric heater will help to maintain the temperature of your swim spa during the coldest months.

14. Auxiliary Gas By-Pass Loop

When your installation calls for an auxiliary heater, our swim spas can be built with special plumbing that will easily and reliably allow for addition of the heater.
(Includes all of the required plumbing and a check valve for performance and safety).

Behind every swim spa
is over 40 years of passion and experience

Hydropool originated in 1980 and has become one of the largest swim spa and hot tub retailers and manufacturers in the world. Whether it's our products, knowledgeable advice, or after sales service and support, the Hydropool Team gives our customers not just great service but... the best experience in the swim spa industry.

It's a company built on family values. Our Goal is to be the pre-eminent manufacturer of swim spas on the planet.

We have the very best people in the industry who have the passion, vision and knowledge to deliver customer satisfaction every day. We've created a network of dedicated retailers in over 60 countries around the world.

We've been able to do that by meeting and exceeding all international standards. Our unique Self-Cleaning and Thermal Shield Insulation enable us to meet the rigorous energy efficiency standards set out by the state of California.

We've been recognized worldwide for excellence and innovation. Hydropool Swim Spas and Hot Tubs have achieved unsurpassed recognition worldwide by setting the industry standards for swim spa and hot tub design and innovation. We have been awarded the most certifications and honors in the swim spa industry. We also have an industry leading guarantee, our swim spas and hot tubs are built to stand the test of time. For details on coverage inquire with your local Hydropool Retailer.

We're a company you can trust to deliver satisfaction. We stand behind every Hydropool Swim Spa and Hot Tubs manufactured and are dedicated to excellence in customer service. Our customer satisfaction has reached such an incredible level that referrals generate 25% of our business every year.

Hydropool has become the number one choice of professional sports teams worldwide. The Toronto Maple Leafs and New York Rangers of the NHL, as well as, the Toronto Raptors and New York Knicks of the NBA.

Sharing the power of water around the globe

We have been creating and innovating with water for over 40 years and sharing our experience with you through our worldwide network of retailers.
